PROJECT DESCRIPTION

Widen East side of Glenwood Dr. to allow for left turn lane to be added. Improve all four radii. Update signal.

COMMENTS

The Vacuum Center on the SE quad should be acquired and removed. Two bussinesses in the NE quad adjacent to Glenwood will also be affected. The on-street parking along the north side of E. Morris Street would be eliminated. A parking area utilizing some of the acquired property could be used to take the place of the eliminated parking. The area now used for parking would become the through route and the center lane would be the left turn lane. Glenwood Dr. would be widened to the East side to allow for left turn lanes on Glenwood Dr. Update signal.
