PROJECT DESCRIPTION

Realign roadway and replace the double corrugated metal pipe with a small concrete box culvert.

COMMENTS

Site is approximately 1/2 mile E of Mill Creek Rd. Traffic was suprisingly heavy for this road but it does lead to the only road over the mountain into Dalton. The next closest road over the mountain is 4.25 miles to the North and 6.5 miles to the South (as the crow flies). The area the road would be moved into appears to be low but at vacant and unless there is an environmental problem the project appears to be an easy fix.
