PRIORITY # 9	CO DISTRICT		CITY WARD	MONTHS EST. CONST TIME
Approx. Project Length 0.2 mile(s)	PROJ CATEGORY Intersections with State Routes			EST. COMPLETION January-00
SPLOST \$ NEEDED	EST. OTHER FUNDING	ESTIMATED TOTAL COST		
\$39,151.75	\$395,646.90	\$434,798.65		

PROJECT DESCRIPTION

Provide accel lane south bound onto Old Dixie Hwy (south leg) and right turn merge lane onto the West bound By Pass. A signal will be needed to eliminate the refuge problem.

COMMENTS

The South leg of Old Dixie Hwy needs improvements to better receive traffic moving west on the ByPass and needs a right turn lane west on to the By Pass. The other problem is the 5th lane on the By Pass does not provide sufficient refuge for vehicles crossing the By Pass. County provide preliminary engineering as their participation.
