**Permit Acknowledgement of
Asbestos / Environmental Notification to
Georgia EPD for Projects Involving Demolition, Wrecking or Renovating**

The undersigned hereby acknowledges that the issuance of this permit does not in any way grant permission to the owner, owner's representative, or permit holder to proceed with demolition, wrecking, or renovation of a structure prior to the filing of any required ten (10) day "Project Notification for Asbestos Renovation Encapsulation or Demolition" form in accordance with the Georgia Asbestos Rules. The Georgia Environmental Protection Division administers the rules. In most cases, the rules require both the owner and the involved contractors to assure the portion of the building involved in the project is thoroughly inspected by an Accredited Asbestos Inspector for materials that contain asbestos; and the removal of the asbestos before renovation, wrecking, or demolition begins almost without exemption. Georgia EPD requires a completed demolition notification form be submitted 10 working days in advance even if no asbestos is present in the building. Further guidance for regulatory compliance and contact telephone numbers are provided by the brochures entitled *Asbestos & Renovation* and *Asbestos and Demolition*. Other environmental issues such as asbestos removal techniques, lead abatement, ground contamination, or unusual site conditions may have EPD regulations that could affect the project.

Forms for asbestos and demolition project notification can be obtained by calling or writing to:

EPD Asbestos Program
4244 International Parkway, Suite 104
Atlanta, Georgia 30354
1-888/373 - 5947
