Whitfield County

Board Of Commissioners

Board Members

Mike Babb, Chairman
Mike Cowan
Randy Waskul
Greg Jones
Harold Brooker

June 1, 2010

The Honorable W. Michael Babb, Chairman
Honorable Commissioners Mike Cowan, Harold Brooker, Randy Waskul, and Greg Jones
And Citizens of Whitfield County, Georgia

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year, unless an extension has been approved, a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of Whitfield County for the fiscal year ended December 31, 2009.

This report consists of management's representations concerning the finances of Whitfield County. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of Whitfield County has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Whitfield County financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Whitfield County comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Whitfield County financial statements have been audited by Chrysan Thomas, C.P.A., PC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of Whitfield County for the fiscal year ended December 31, 2009 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the Whitfield County financial statements for the fiscal year ended December 31, 2009 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The Whitfield County MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

Whitfield County is located in the northwest portion of Georgia. It is considered to be the economic hub of this region. Whitfield County occupies a land area of 290 square miles and serves a population of 93,698. Whitfield County is empowered to levy a property tax on both real and personal properties located within its boundaries.

Whitfield County has been operating under a Board-administrator form of government since 1971. Policy-making and legislative authority are vested in the Board of Commissioners consisting of a Chairman elected at-large and four commissioners from four separate districts also elected at-large on a partisan basis. The Chairman and Commissioners serve four-year staggered terms. The Board of Commissioners is responsible for passing ordinances, adopting the budget, appointing committees, and hiring the government's manager, attorney and auditors in addition to other duties. The County Administrator is responsible for carrying out the policies and ordinances of the Board of Commissioners, for overseeing the day-to-day operations of the government, and for hiring/firing the heads of various departments under the Board of Commissioners.

Whitfield County Government provides a full range of services, including police protection via the Sheriff's Department, maintenance of roads and other infrastructures, inspections and enforcement, court services, jail, information technology services, 911, fire protection, animal control, and parks and recreation.

The annual budget serves as the foundation for Whitfield County's financial planning and control. All departments of the Whitfield County Government are required to submit requests for appropriation to the County Administrator who, in turn, submits a recommended budget for the Board of Commissioners to review by the second Monday in November. The Board of Commissioners may then hold a budget hearing. After holding a public hearing on the proposed budget, the final budget must be adopted no later than December 31st. The appropriated budget is prepared by fund and department. Department heads may make transfers of appropriations within a department with the exception of salaries and benefits. Transfers of appropriations from salaries and benefits, or between departments, however, require the special approval of the governing board. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted.

Factors Affecting Financial Conditions

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which Whitfield County operates.

Local Economy. The economic downturn has continued to affect Whitfield County. Because of most of the County relies on the carpet industry, which has continued to suffer, the County has seen some of the highest unemployment rates in Georgia and has continued to be well above the national average with a high point in March at 13.4% and ending the year at 12.5%.

The economy is improving slightly with an overall outlook showing a very gradual growth of the economy of about 2% for 2010.

Both public and private schools in Whitfield County are major contributors to the local economy in the form of employment opportunities and capital investments being made in new and expanded school facilities.

Whitfield County has an employed work force of over 38 ,000. The per capita income of those living in Whitfield County has dropped to \$30,335, based on the latest available data.

Long-Term Financial Planning. Whitfield County voters passed a \$48,000,000 special purpose local option sales tax (SPLOST) in 2008 to finance roads, streets, and bridges capital outlay projects for the use and benefit of the County and qualified municipalities within the County. These projects are on-going with the County now in the 2nd year of the 3 year SPLOST collections with work that will continue into 2011.

Cash Management. The County effectively utilized several investment vehicles during the report year. All funds, except those immediately required to cover checks, were invested in interest bearing checking and savings accounts, the State of Georgia Local Government Investment Pool (LGIP), and the Georgia Extended Asset Pool (GEAP).

Risk Management. The County maintains a self-insured health insurance program. Funds are budgeted to pay claims, claims reserve, excess insurance coverage and administrative costs of the self-insured health insurance program. The County has joined together with other governments in Georgia as part of the Association County Commissioners of Georgia (ACCG) Inter-local Risk Management Agency (IRMA) property and liability insurance fund and the ACCG Group Self-Insurance Worker's Compensation Fund.

Other Information

Independent Audit. Georgia Code requires an annual audit of the books of account, financial records, and transactions of all administrative departments of the County by independent certified public accountants selected by the County Board of Commissioners. This requirement has been met and the auditor's unqualified opinion has been included in this report.

Awards. The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for its comprehensive annual financial report for the fiscal year ended December 31, 2008. In order to be awarded a Certificate of Achievement, the County published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both generally accepted accounting principles and applicable legal requirements.

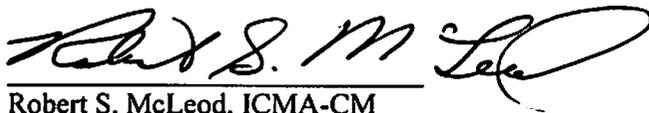

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements. We are submitting it to GFOA to determine its eligibility for another Certificate.

Acknowledgments.

The preparation of this comprehensive annual financial report could not have been accomplished without the dedication and contributions of the entire Finance Department Staff, the Auditors of the County, and the cooperation of the various elected officials and appointed management.

In closing, we also wish to acknowledge the valuable contribution of the Board of Commissioners. Without their guidance and leadership, preparation of this report would not have been possible.

Respectfully Submitted,

Robert S. McLeod, ICMA-CM
County Administrator

Certificate of Achievement for Excellence in Financial Reporting

Presented to

Whitfield County
Georgia

For its Comprehensive Annual
Financial Report
for the Fiscal Year Ended
December 31, 2008

A Certificate of Achievement for Excellence in Financial Reporting is presented by the Government Finance Officers Association of the United States and Canada to government units and public employee retirement systems whose comprehensive annual financial reports (CAFRs) achieve the highest standards in government accounting and financial reporting.

INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners
Whitfield County, Georgia

I have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Whitfield County, Georgia, as of and for the year ended December 31, 2009, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Whitfield County, Georgia's management. My responsibility is to express opinions on these financial statements based on my audit. I did not audit the financial statements of the component unit, Whitfield County Department of Public Health. Those financial statements as of June 30, 2009 were audited by other auditors whose report thereon has been furnished to me, and my opinion, insofar as it relates to the amounts included for Whitfield County Department of Public Health, is based on the reports of the other auditors.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit and the report of other auditors provide a reasonable basis for our opinions.

In my opinion, based on my audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Whitfield County, Georgia as of December 31, 2009, and the respective changes in financial position and, where applicable, cash flows thereof, and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, I have also issued a report dated May 28, 2010 on my consideration of Whitfield County, Georgia's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and important for assessing the results of my audit.

The Management's Discussion and Analysis (pages 10 through 19), and Analysis of Funding Progress (page 63) are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. I and the other auditors have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, I did not audit the information and express no opinion on it.

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Whitfield County, Georgia's basic financial statements. The introductory section, combining and individual non-major fund financial statements and budgetary comparison schedules, the Schedule of Expenditures for Construction Projects Funded by Special Purpose Local Option Sales and Use Tax, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of Whitfield County, Georgia. The combining and individual non-major fund financial statements and budgetary comparison schedules, the Schedule of Expenditures of Federal Awards, and the Schedule of Expenditures for Construction Projects Funded by Special Purpose Local Option Sales and Use Tax have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, I express no opinion on them.

CHRYSAN THOMAS
Certified Public Accountant

Dalton, Georgia

MANAGEMENT'S DISCUSSION AND ANALYSIS

WHITFIELD COUNTY, GEORGIA
MANAGEMENT'S DISCUSSION AND ANALYSIS
Year Ended December 31, 2009

Within this section of the Whitfield County, Georgia (The County) Comprehensive Annual Financial Report (CAFR), the County's management provides narrative discussion and analysis of the financial activities of the County for the year ended December 31, 2009. The County's financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section. Additional information is available in the transmittal letter which precedes Management's Discussion and Analysis. The discussion focuses on the County's primary government and, unless otherwise noted, component units reported separately from the primary government are not included.

Financial Highlights

Key financial highlights for 2009 are as follows:

- The County's combined net assets totaled \$394.5 million – a decrease of \$20 million from the prior year. Of this amount, unrestricted net assets of \$24.5 million may be used to meet the government's ongoing obligations to citizens and creditors.
- Combined revenue including transfers totaled \$58 million, of which governmental activities totaled \$57 million and business-type activities totaled \$1 million. The governmental activities total is a drop of \$5.3 million, with the biggest drop coming from tax revenues which fell by \$4.5 million from the impact of the economic downturn.
- Overall expenses totaled \$78.4 million, of which governmental activities totaled \$77.1 million and business-type activities totaled \$1.3 million. This represents a small increase from the prior year in business-type activities – governmental activities dropped by \$.1 million.
- During 2009, governmental activities expenses exceeded program revenues, resulting in the use of \$69 million in general revenues, resulting in a negative change in net assets.
- Whitfield County's total liabilities increased by \$7 million. Other post-employment benefits obligation increased \$5.5 million. The County issued \$3.6 million in bonds for economic development, which is reflected in bonds payable, both current and non-current. Accounts payable and notes payable, both current and non-current reflect a decrease for 2009.
- At December 31, 2009, the County's general fund reported an unreserved fund balance of \$22.1 million, a decrease of \$1.7 from 2008.

Overall, Whitfield County, Georgia continues to maintain a strong current financial position though continued deficit spending is unsustainable and must be addressed in the near future.

Overview of the Financial Statements

Management's Discussion and Analysis includes the County's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. The County also includes in this report additional information to supplement the basic financial statements.

Government-wide Financial Statements

The County's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the County's overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in accrual accounting and eliminating and/or reclassifying internal activities.

The first of these government-wide statements is the *Statement of Net Assets*. This is the countywide statement of position presenting information that includes all of the County's assets and liabilities, with the difference reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County as a whole is improving or deteriorating. Evaluation of the overall health of the County would extend to other non-financial factors such as diversification of the taxpayer base or the condition of County infrastructure in addition to the financial information provided in this report.

The second government-wide statement is the *Statement of Activities* which reports how the County's net assets changed during the current year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the County's distinct activities or functions on revenues provided by the County's taxpayers.

Both government-wide financial statements distinguish government activities of the County that are principally supported by taxes and user charges, and from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. Government activities include general government, judicial, public safety, health and welfare, housing and development, and culture and recreation. Business-type activities include the Whitfield County Transit System, the County's interest in the Northwest Georgia Trade & Convention Center Authority, and Northwest Georgia Regional Solid Waste Management Authority. The County's fiduciary activities simply hold resources temporarily for others and are not included in the government-wide statements since these assets are not available to fund County programs.

The County's financial reporting includes the funds of the County (primary government) and additionally, organizations for which the County is accountable (component units). Component units operate independently or provide services directly to the citizens, though the County remains accountable for their activities. Component units are governed by a board of directors that the County has the authority to make all or some of the appointments. Whitfield County's only component unit, the County Health Department, is reported separately from the primary government though included in the County's overall reporting entity.

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The County uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the County's most significant funds rather than the County as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for non-major funds is provided in the form of combining statements in a later section of this report.

The County has three kinds of funds:

Governmental Funds are reported in the fund financial statements and encompass essentially the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the County's governmental funds. These statements report short-term accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of government programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to assist in understanding the differences between these two perspectives.

Budgetary comparison statements are included in the basic financial statements for the general fund. Budgetary comparison schedules for special revenue funds and the capital project funds can be found in a later section of this report. These statements and the schedules demonstrate compliance with the County's adopted and final revised budget.

Proprietary Funds are reported in the fund financial statements and generally report services for which the County charges customers a fee. There are two kinds of proprietary funds. There are enterprise funds and internal service funds. Enterprise funds essentially encompass the same functions reported as business-type activities in the government-wide statements. Services are provided to customers external to the County organization such as the Northwest Georgia Trade & Convention Center Authority, the 5311 Public Transportation System, and the Northwest Georgia Regional Solid Waste Authority. The internal service fund provides services and charges fees to customers (i.e., other funds) within the County organization. The County's sole internal service fund provides the County with workers' compensation. Because the County's internal service fund exclusively serves governmental functions, it is included with in the governmental activities of the government-wide financial statements. Proprietary fund statements and statements for discretely presented component units (reporting is similar to proprietary funds) provide both long-term and short-term financial information consistent with the focus provided by the government-wide financial statement but with more detail for major enterprise funds and individual component units. Individual fund information for the internal service fund and non-major enterprise funds is found in combining and individual fund statements in a later section of this report.

Fiduciary Funds (i.e., the agency funds) are reported in the fiduciary fund financial statements, but are excluded from the government-wide reporting. Fiduciary fund financial statements report resources that

are not available to fund County programs. Fiduciary fund financial statements report similarly to proprietary funds.

Notes to the Basic Financial Statements

The accompanying notes to the basic financial statements provide information essential to a full understanding of the government-wide and fund financial statements.

Other Information

Major funds and component units are reported in the basic financial statements as discussed. Combining and individual statements and schedules for non-major and the internal service fund are presented in a subsequent section of this report.

Financial Analysis of the County as a Whole

As noted previously, net assets may serve over time as a useful indicator of a government's financial position. The County's combined net assets (government and business-type activities) totaled \$394.5 million at December 31, 2009. This is a decrease of \$20 million, due in large part to a planned use of assets to cover an operational deficit and capital spending and 2009 revenue losses from economic conditions.

The following table provides a summary of the County's governmental and business-type net assets for the years 2009 and 2008.

WHITFIELD COUNTY, GEORGIA
STATEMENT OF NET ASSETS

	Governmental Activities		Business Activities		Total	
	2009	2008	2009	2008	2009	2008
Assets:						
Current assets	\$ 62,736,874	\$ 55,590,250	\$ 44,821	\$ 96,908	\$ 62,781,695	\$ 55,687,158
Other assets	3,734,313	3,534,925	14,415,214	14,638,780	18,149,527	18,173,705
Capital assets	335,443,861	355,333,747	1,263,143	1,784,917	336,707,004	357,118,664
Total assets	401,915,048	414,458,922	15,723,178	16,520,605	417,638,226	430,979,527
Liabilities:						
Current liabilities	5,027,067	5,618,125	500,787	507,021	5,527,854	6,125,146
Non-current liabilities	17,052,585	8,939,263	482,968	942,009	17,535,553	9,881,272
Total liabilities	22,079,652	14,557,388	983,755	1,449,030	23,063,407	16,006,418
Net assets:						
Invested in capital assets	335,443,861	355,333,747	292,761	396,812	335,736,622	355,730,559
Restricted	34,331,858	24,570,411	-	-	34,331,858	24,570,411
Unrestricted	10,059,677	19,997,376	14,446,662	14,674,763	24,506,339	34,672,139
Total net assets	\$379,835,396	\$399,901,534	\$ 14,739,423	\$ 15,071,575	\$394,574,819	\$414,973,109

The largest portion of the County's net assets (85%) reflects its investment in capital assets such as land, buildings, equipment and infrastructure, less any related debt used to acquire those assets that are still outstanding. The County's investment in capital assets, net of related debt, decreased by \$20 million (6%) in 2009 – most of which came from depreciation.

The County uses these capital assets to provide services to its citizens; therefore, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources since the capital assets themselves cannot be used to liquidate these liabilities.

At the end of the current year, the County is able to report positive balances in all categories of net assets for both governmental and business-type activities.

Changes in Net Assets

Governmental and business-type activities decreased the County's net assets by \$20.4 million. The following table indicates the changes in net assets for governmental and business-type activities in 2009 and 2008.

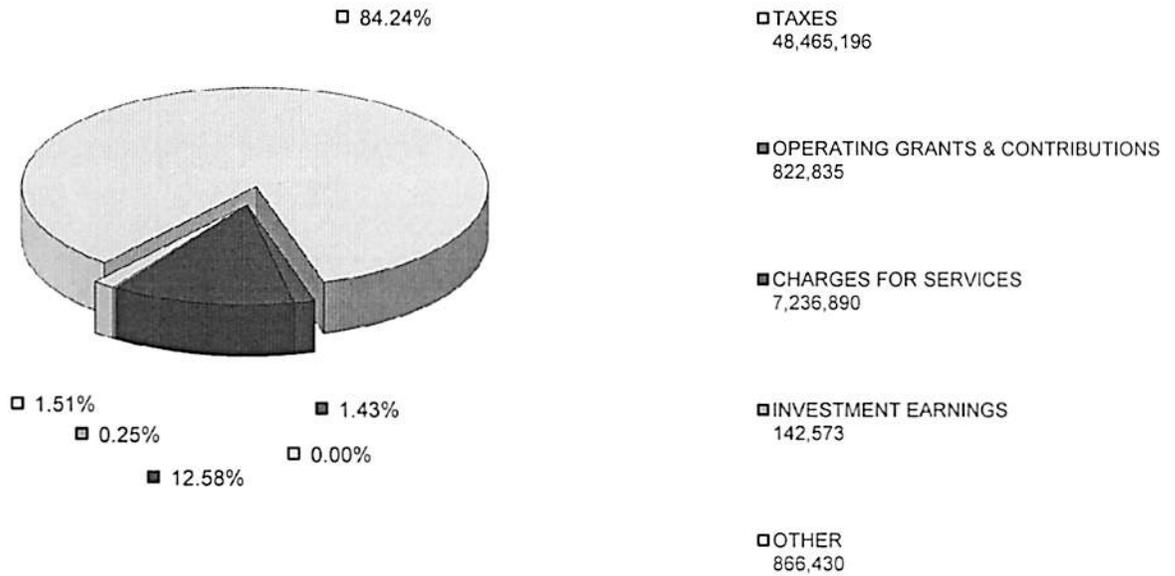

Changes in Net Assets

Expenditures - Governmental Activities

Financial Analysis of the County's Funds

Governmental Funds

As discussed, the focus of governmental funds is on current financial resources. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. The general fund is the County's primary operating fund and the largest source of day-to-day service delivery. The general fund reported ending fund balances of \$22 million of which 98.8% is undesignated indicating availability for continuing County service requirements. The designated fund balance consists of 1.2% for prepayments.

- Total governmental funds revenues decreased \$5.6 million primarily due to the reduction of sales taxes, both (LOST) local option sales taxes, and (SPLOST) special purpose local option sales taxes. Investment earnings also reflect a significant reduction.
- The non-major special revenue funds revenues reflect a slight increase of \$259,967 primarily due to intergovernmental revenues from various grants and fees for the 911 Emergency System.
- Total governmental funds expenditures decreased \$1 million in the year 2009 due to the conservative spending by many departments throughout the year. Although there was an overall decrease in governmental funds expenditures, the SPLOST capital projects fund increased \$1 million.
- The non-major special revenue funds expenditures reflect an overall increase of \$129,337 in 2009 primarily due to the addition of the Community HOME Investment Program (CHIP Grant) which is used to assist a special population of seven homeowners with the reconstruction of their homes.

Proprietary Funds

The proprietary fund statements share the same focus as the government-wide statements, reporting both short-term and long-term information about financial status.

GENERAL FUND BUDGETARY HIGHLIGHTS

The original budget adopted, as well as the final amended budget, anticipated a decrease in its fund balance. Actual expenditures were \$1,031,957 less than the final amended budgeted amount. The decrease in expenditures is spread over many departments due to the conservative spending throughout the year.

Actual revenues exceeded the final amended budget by \$750,037 due to an increase in commissions collected by the Tax Commissioner's Office. The actual fund balance decreased by \$1,733,795.

- General fund revenues fell short of the anticipated projection for 2009 and decreased \$7.7 million from the amount collected in 2008.
 - ❖ Several revenue sources exceeded the anticipated projection for 2009 with the most significant being \$657,616 from charges for services due to the increase of commissions collected by the Tax Commissioner's Office.

- ❖ Overall taxes increased by \$172,097, charges for services increased \$657,616, and intergovernmental revenues together with other revenues reflected an increase totaling \$3,178.
- The General fund expenditures were \$1,031,957 less than the final amended budget. Various departments were under budget, but none reflected a significant difference.

Capital Asset and Debt Administration

Capital Assets

The County's investment in capital assets, net of accumulated depreciation for governmental and business-type activities as of December 31, 2009, was \$335,443,861 and \$292,761, respectively. The total net investment was decreased by \$19.8 million for governmental activities.

- SPLOST-capital projects revenues decreased \$3.2 million in 2009 due to a downturn in the economy.
- The expenditures in 2009 were primarily for the planning phase of the transportation project listing. However, several projects were started or completed during the year.

Debt Service

Resources in the Debt Service Fund are to pay the future debt service requirements on the water expansion project. Whitfield County guaranteed the interest payments on the debt with Dalton Utilities for the construction of water lines throughout the County. Payments were made in 2009 totaling \$1.1 million leaving a fund balance at December 31, 2009 of \$3.3 million

The County's investment in capital assets for its governmental and business-type activities as of December 31, 2009 amounts to \$335.7 million (net of accumulated depreciation and related debt). This investment in capital assets includes land, buildings, equipment and infrastructure. Infrastructure assets are items that are normally immovable and of value only to the County.

Whitfield County's Capital Assets
(Net of Depreciation)

	Governmental Activities		Business Activities		Total Primary Government	
	2009	2008	2009	2008	2009	2008

The total net decrease in the County's investment in capital assets for 2009 was 5.7%.

Additional information on the County's capital assets can be found in Note 4 of the Basic Financial Statements section of this report.

Long-term Debt

As of December 31, 2009, Whitfield County had a net of \$8.3 million in outstanding long-term debt. The governmental activities debt balance was \$7.3 million and the business-type activities balance was \$1 million.

Additional information on Whitfield County's long-term debt can be found in Note 10 of the Basic Financial Statements section of this report.

Economic Factors and Next Year's Budgets

Whitfield County felt the impact of the economic downturn that officially started for the entire country in the last quarter of 2008. However, this really started at the end of 2007 for Dalton/Whitfield when our unemployment rate jumped from just over 4% to 5% in December. The area unemployment rate continued a steady rise throughout 2009 and was at 12.5% at the end of the year. This was 2.5% higher than the national average primarily due to the weighted impact of the downturn in the nation's housing market and the effect on the area's carpet industry.

The major revenue streams that were impacted were:

Sales Tax

Local option sales tax (LOST) revenues decreased significantly in 2009 for the 2nd year in a row. The sales tax revenue for 2009 was down over \$2.3 million amounting to a 15% drop making it the lowest year on record for at least 12 years. In the years from 2002 to 2006, sales tax revenue had been growing by almost a million per year and stayed just about the same in 2007.

A special purpose local option sales tax (SPLOST) passed in 2007 and took effect on January 1, 2008. The tax will be used solely for transportation infrastructure. For 2009, much of the SPLOST activity was still in the planning and design or right-of-way acquisition phases and much of the proceeds were invested. The fund was on budget at the end of the year allowing planned projects to go forward.

Property Tax

The property tax digest dropped by about 1% in 2009 because of the decline in property values. This was the first contraction in years. However, the overall decline was less than the 5% planned for in the budget.

Licenses & Permits

The economic downturn continued to depress the building industry and resulted in building inspection fees dropping another 16% overall. However, there was a spike of activity late in the year which may hold out some promise for a 2010 increase.

State Department of Transportation

Whitfield County received the annual Local Assistance Road Program (LARP) contracts very late in the year and the work will be done in 2010. The County had expected the LARP funding along with some additional grants to total \$1,300,000 but the actual contracts totaled only about \$260,000 – none of which was received in the year because of the lateness of the contracts.

Investment Income

For 2009, interest rates continued to drop. This caused our investment earnings to drop from 1.5% at the end of 2008 to only 0.24% by year end. The County originally budgeted for \$390,000, but amended the budget to reflect the projected shortfall. The actual investment earnings were only \$116,000.

Economic Development

Even with this drop in revenues, the Whitfield County Board of Commissioners took a strong stance to look beyond the current downturn and invest in the future economic growth of the County. Some of the key projects are:

Commerce Parks

Commerce Park I: The County purchased approximately 40 acres of land off of Highway 41 and Cavender Road for use as a commerce/business park to recruit new business to Whitfield County. The Joint Development Authority was able to recruit IVC US, Inc. to the County to use this site to construct a new \$70,000,000 dollar plant and bring about 150 new jobs to the area.

Commerce Park II: With IVC US, Inc. needing basically the entirety of Commerce Park I, the County still needed a site to recruit new business and proceeded to get some options on a much larger site of about 180 acres in the Carbondale area with plans to close on the property in early 2010.

Sewer Project

In another effort to attract new business to the County, the Commissioners approved a partnership plan with Dalton Utilities to expand sewer lines up to the Tunnel Hill exit on I-75 which opens it up to greater development. The line will also open up parts of the City along the line and will improve sanitation in residential areas as well. The County pledged \$1 million to the project to Dalton Utilities in exchange for a portion of the connection fees over the next 10 years.

Whitfield County adopted its 2010 budget on December 16, 2009. The 2010 general fund budget reflected revenues of \$40,247,600, operational expenditures and transfers of \$43,946,323, and capital expenditures of \$2,787,000 for a reduction in fund balance of \$6,485,723. The Board of Commissioners were presented a five-year plan for capital expenditures of which \$6,633,500 is included in the 2010 adopted budget.

The 2010 budget took into account the economic downturn while still attempting to maintain the current service levels. The budget has a planned usage of the fund balance for operations resulting from the projected drop in revenues. Also, the five-year capital budget has had a number of projects delayed into the future.

Even with the downturn, the investments in economic development, and without any major cuts in services, the County was still able to hold the mileage rate flat at the 2008 levels through 2009 and in the 2010 budget. In addition, the 2010 budget includes the first 20% reduction in inventory taxes with the implementation of the Freeport exemption. **The County's tax rate ranks as the 5th lowest in the State even though it ranks as the 25th largest in the economic ranking list out of 159 counties.**

Contacting the County's Financial Management

This financial report is designed to provide a general overview of the County's finances, comply with finance-related laws and regulations, and demonstrate the County's commitment to public accountability. **WHITFIELD COUNTY, GEORGIA
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCES OF GOVERNMENTAL ACTIVITIES TO
THE STATEMENT OF ACTIVITIES
Year Ended December 31, 2009**

NET CHANGES IN FUND BALANCES- TOTAL GOVERNMENTAL FUNDS	\$	8,027,652
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures.		
However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense exceeded capital outlay in the current period.		
Depreciation expense	\$ (21,812,927)	
Capital outlay	<u>2,138,229</u>	(19,674,698)
Gain on disposition of assets is not reported in governmental funds.		(194,280)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Taxes	\$ (41,578)	
Deferred revenue	(12,443)	
Equity investment in joint venture	<u>34,168</u>	(19,853)
The writeoff of capital assets not reported at the fund level		(20,908)
The current years additions to certain assets reduced the net expenses of those functions on the statement of activities.		
Net pension asset		42,579
Other postemployment expenses are reported in the government-wide statement of activities, but do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		(5,527,000)
Repayments of long-term principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.		942,488
Amortization of debt issuance costs and debt premiums are not reported at the fund level but are reported in the government wide statement of activities.		122,641
Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets.		-
		(3,625,000)
Some expenses reported in the statement of activities, such as compensated absences do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		
Compensated absences		(9,005)
The internal service funds used by management to charge the costs of workers' compensation to individual funds are not reported in the government-wide statement of activities.		<u>(130,754)</u>
CHANGES IN NET ASSETS OF GOVERNMENTAL ACTIVITIES	\$	<u>(20,066,138)</u>

The notes to the financial statements are an integral part of this statement.

NOTES TO FINANCIAL STATEMENTS

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2009

1. Summary of significant accounting policies

Whitfield County, Georgia (County) was incorporated in 1851 under the provisions of the Constitution of the State of Georgia. The County operates under a Board-Administrator form of government and provides the following services as authorized by its charter: public safety - 911 and fire, public works, sanitation, health and social services, culture-recreation, public improvements, planning and zoning and general administrative services.

The financial statements of the County have been prepared in conformity with generally accepted accounting principles in the United States (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting. The more significant accounting policies of the County are described below.

A. Reporting Entity - As required by generally accepted accounting principles, these financial statements present the government and its component units, entities with which the government has a significant financial or operational relationship. Blended component units, although legally separate entities, are, in substance, part of the government's operations, so data from these units are combined with data of the primary government. Discretely presented component units, on the other hand, are reported in a separate column in the combined financial statements to emphasize that they are legally separate from the government.

Joint Ventures

- The County participates with the City of Dalton in the Dalton-Whitfield Regional Solid Waste Management Authority ("DWRSWMA"). The County has fifty percent equity in this entity. Separately issued financial statements of the DWRSWMA can be obtained from their administrative office located at 4350 Gazaway Drive SE, Dalton, Georgia 30720.
- The County participates with the City of Dalton in the Northwest Georgia Trade and Convention Center Authority ("Trade Center"). The Trade Center became a separate authority in 2003. The County and City retained their respective shares of their equity balances as of December 31, 2002. The City and County each now have fifty percent interest in the income or loss of this entity. Separately issued financial statements of the Northwest Georgia Trade and Convention Center Authority can be obtained from their administrative office located at 2211 Dug Gap Battle Road, Dalton, Georgia 30720.
- The County participates with the City of Dalton in the Dalton-Whitfield Joint Development Authority. The County has fifty percent equity in this entity. Separately issued financial statements of the Dalton-Whitfield Joint Development Authority can be obtained from their administrative office located at 890 College Drive, Dalton, Georgia 30720.

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2009

1. Summary of significant accounting policies - continued

Discretely Presented Component Unit

- **Whitfield County Department of Public Health** - A voting majority of the members of the Board of Health is appointed by the Whitfield County Board of Commissioners. The Whitfield County Board of Commissioners is authorized by state law to approve environmental health service fees. The Board of Commissioners approves the budget of the Board of Health and provides regular operating subsidies. The Whitfield County Department of Public Health issues a separately audited financial statement. A copy of the component unit report can be obtained from the Director of Management, North Georgia Health District, District 1 Unit 2, 100 West Walnut Avenue, Suite 92, Dalton, Georgia 30720.

- B. Government-wide Statements and Fund Financial Statements** - The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from the legally separate component unit for which the primary government is financially accountable.

In the government-wide statement of net assets, both the government and business-type activities columns are presented on a consolidated basis by column, and are reflected on a full accrual, economic resource basis which recognizes all long-term assets and receivables as well as long-term debt and obligations. The County's net assets are reported in three parts – invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets.

The government-wide statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a program and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The County has elected not to follow subsequent private-sector guidance.

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2009

1. Summary of significant accounting policies - continued

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for the proprietary funds include the cost of contractual services and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Non-major funds are aggregated and presented in a single column.

Governmental funds are those funds through which most governmental functions are typically financed. The measurement focus of governmental funds is on the sources, uses and balances of current financial resources.

The County has presented the following major governmental funds:

General Fund - The general fund is the principal operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund.

SPLOST Capital Projects Fund – SPLOST capital projects fund is used to account for financial resources to be used for the construction of roads and bridges financed through a special local option sales tax.

The County has presented the following major business-type funds:

Dalton/Whitfield Solid Waste Management – The Dalton/Whitfield Solid Waste Management fund is used to account for the 50% equity interest in the joint venture with the City of Dalton.

Northwest Georgia Trade and Convention Center – The Northwest Georgia Trade and Convention Center fund is used to account for the County's activity of the trade and convention center.

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2009

1. Summary of significant accounting policies - continued

Additionally the County reports the following funds:

Internal Service Fund – The internal service fund is to account for the self-insured workers' compensation program.

Fiduciary Funds – The County's fiduciary funds are agency funds used by the County's Constitutional Officers. These agency funds are custodial in nature and do not involve measurement of results of operations. They include the Tax Commissioner, Clerk of Superior Court, Sheriff, Probate Court, Magistrate Court and the Juvenile Court.

- C. Measurement Focus and Basis of Accounting** - The accounting and reporting treatment applied to a fund is determined by its measurement focus. Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide statements and fund financial statements for proprietary funds and fiduciary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The resources measurement focus means all assets and liabilities (whether current or non-current) are included on the statement of net assets and the operating statements present increases (revenues) and decreases (expenses) in net total assets. Under the accrual basis of accounting, revenues are recognized when earned. Expenses are recognized at the time the liability is incurred. Gains or losses resulting from disposals are included in operating income in the year of disposal.

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The County considers property taxes as available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred. However, debt service requirements, as well as expenditures related to compensated absences are recorded only when payment is due.

Those revenues susceptible to accrual are property taxes, franchise taxes, special assessments, licenses, interest revenue and charges for services. Sales taxes collected and held by the state at year-end on behalf of the County are recognized as revenue. Property taxes received generally after 60 days are shown as deferred revenues. Fines, permits and forfeitures are not susceptible to accrual because generally they are not measurable until received in cash.

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2009

1. Summary of significant accounting policies – continued

Deferred revenues arise when potential revenue does not meet both the “measurable” and “available” criteria for recognition in the current period. Deferred revenues also arise when resources are received by the County before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. On governmental fund financial statements, receivables that will not be collected within the available period have been reported as deferred revenue rather than revenue.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

D. Budgetary Control - The County follows these procedures in establishing the budgetary data reflected in the financial statements:

- On or before September 1, the County Administrator submits to the Whitfield County Board of Commissioners a proposed operating budget for the calendar year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted which allow for taxpayer comments.
- Budgets are legally adopted by the Board of Commissioners at the first regular meeting in December for the General, Special Revenue, Debt Service and Capital Projects Funds.

Any revisions to the budgets, other than intradepartmental transfers, must be approved by the Board in a regular scheduled meeting. The legal level of budgetary control is the department level.

Intradepartmental transfers, not affecting salaries or benefit accounts, must be requested in writing and approved by the County Administrator.

Formal budgetary integration is employed as a management control device during the year.

The County’s budgets are prepared on a basis consistent with generally accepted accounting principles in the United States of America. Budgetary comparisons are presented on this basis.

All unexpended appropriations lapse at the end of the year.

E. Cash - The County uses a centralized cash account for a large portion of its operations. The monies deposited and disbursed are reflected in the individual funds. Negative balances incurred in pooled cash at year-end are treated as interfund receivable of the General Fund and interfund payable of the deficit fund. Cash includes demand deposits, certificates of deposit, and money market accounts.

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2009

1. Summary of significant accounting policies – continued

F. Investments – Investments include United States government and government agency securities. Money market investments that have a remaining maturity at the time of purchase of one year or less are reported at amortized cost, which approximates fair value. All other investments are stated at fair value based on quoted market prices.

Georgia law authorizes local governments to invest in the following types of obligations:

- Obligations of the State of Georgia or of any other states;
- Obligations issued by the United States;
- Obligations fully insured or guaranteed by the United States government or governmental agency;
- Obligations of any corporation of the United States government;
- Prime bankers' acceptances;
- Georgia Fund I state investment pool;
- Georgia Extended Asset Pool (GEAP);
- Repurchase agreements; and
- Obligations of other political subdivisions of the State of Georgia.

For purposes of the statement of cash flows, the County's proprietary fund type considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

G. Inventory - The cost of inventory is recorded as an expenditure at the time the individual inventory items are purchased. The County does not maintain significant levels of inventory items.

H. Prepaid Items - Certain payments to vendors reflect cost applicable to future accounting periods and are recorded as prepaid items.

I. Interfund Transactions – On the fund financial statements, receivables and payables resulting from interfund loans are classified as "due to/from other funds." Any residual balances outstanding between the governmental activities and business type activities are reported in the government-wide financial statements as "internal balances."

J. Capital assets – Capital assets, which include property, equipment and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Beginning in 2007, general infrastructure assets acquired prior to January 1, 2003 were reported in the basic financial statements.

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2009

1. Summary of significant accounting policies – continued

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Capital assets of the primary government, as well as the component units, are depreciated using the straight line method over the following useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and structures	35
Equipment and fixtures	3 – 7
Vehicles	5
Infrastructure	10 – 40

K. Compensated Absences – It is the County's policy to allow employees to accumulate paid time off up to 20 days. Any earned leave in excess is credited to an extended leave bank. There is no liability for unpaid extended leave since the County does not have a policy to pay any amounts when employees separate from service with the government. All paid time off is accrued when incurred in the government-wide, and proprietary financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

L. Long-term Obligations – In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported net of applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

M. Fund Equity – In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2009

1. Summary of significant accounting policies – continued

N. Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

O. Comparative Data - Comparative total data for the prior year has been presented only for individual funds in the fund financial statements in order to provide an understanding of the changes in the financial position and operations of these funds. Also, certain amounts presented in the prior year data have been reclassified to be consistent with the current year's presentation.

P. Interfund Activity – Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after the non-operating revenues/expenses section in proprietary funds. Repayments from the funds responsible for particular expenditures or expenses to the funds that initially paid for them are presented as reductions in internal balances.

Transfers between governmental and business-type activities on the government-wide statement of activities are reported as general revenues. Transfers between funds reported in the governmental activities column are eliminated. Transfers between funds reported in the business type activities column are eliminated.

2. Cash and investments

Cash and investments – custodial credit risk

Custodial credit risk for deposits and investments is the risk that, in the event of the failure of a depository financial institution, the County's deposits and investments might not be recovered. The County's policy and state statutes require all deposits and investments to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties or municipalities. As of December 31, 2009, all of the County's deposits were insured or collateralized.

Investments

As of December 31, 2009, the County had the following investments:

<u>Type</u>	<u>Fair Value</u>	<u>Interest Rate Risk</u>
Georgia Fund 1	\$ 11,337,505	Weighted Average Maturity-56 days Duration - 1.06
GEAP	<u>1,043,684</u>	
Total investments	<u>\$ 12,381,189</u>	

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2009

2. Cash and investments - continued

The County invests funds throughout the year in a Local Government Investment Pool (Georgia Fund 1). Georgia Fund I, created by OCGA 36-83-8, is a stable net asset value investment pool which follows Standard and Poor's criteria for AAAM rated money market funds and is regulated by the Georgia Office of Treasury and Fiscal Services. However, Georgia Fund I operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. The pool is not registered with the Securities and Exchange Commission (SEC) as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1.00 per share value). Net asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participant's shares sold and redeemed based on \$1.00 per share. Investments in the Georgia Fund I LGIP are rated AAAM. Due to the nature of the accounts, this fund is exempt from disclosure of custodial credit risk.

The Georgia Extended Asset Pool (GEAP) is offered by the State of Georgia to counties, municipalities, public colleges and universities, board of education, special districts, state agencies, and other authorized entities as an alternative to Georgia Fund I. A primary objective of GEAP is the prudent management of public funds on behalf of state and local governments. GEAP was designed for those investors seeking taxable income higher than money market rates and willing to accept price fluctuations. Investments in GEAP are rated AAAf.

Deposit and investment transactions are subject to a variety of risks. The County's adopted investment policies seek to promote the safety of principal, provide adequate liquidity for operation needs, earn market rates of return on investments consistent with liquidity needs and investment quality, and conform with legal requirements.

Interest rate risk is the risk that changes in interest rates will adversely affect the value of an investment. The County's investment policy states that the Government will structure its portfolio to meet cash requirements for ongoing operations. The policy also emphasizes the purchase of shorter term or more liquid investment. The County limits its investments to those with maturities of five years or less.

Credit Risk is the risk that an issuer or counterparty to an investment will not fulfill its obligations. The County's investment policy seeks to minimize credit risk through diversification of investments within the choices allowed under state statutes.

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2009

3. Property taxes

State law requires that property taxes be based on assessed value, which is 40% of fair market value. With the exception of motor vehicles and the property of public utilities, which are valued by the State Revenue Department, the Board of Tax Assessors of Whitfield County makes all assessments. Upon completion of all assessments and tax returns, the information is turned over to the Whitfield County Tax Commissioner for compilation of the tax digest. The completed tax digest must be submitted to the State Revenue Commissioner for approval. The State Revenue Commissioner must ascertain that real property on the tax digest has been assessed at the state mandated forty percent (40%) of fair market value. If not, the State Revenue Commissioner may issue a consent order to reassess real property. The County Tax Commissioner distributes tax notices and collects tax payments.

The County Tax Commissioner also collects taxes for the Whitfield County Board of Education, the City of Dalton, the City of Dalton Board of Education, the City of Varnell, Dalton Downtown Development Authority, and the State of Georgia. Motor vehicle taxes must be paid by the birth date of the owner of the vehicle. Property taxes are levied each October based on values as of January 1st and are due on December 20th each year. The 2009 property taxes were levied on November 8, 2009 with taxes being due on January 8, 2010. Taxes are considered delinquent after January 8th. Collections of property taxes are made throughout the year. Property taxes are attached as an enforceable lien on the day the taxes become delinquent. The total real and personal tax levy is recorded as revenue in the fiscal year in which such amounts will be available (collected within 60 days of year-end) as net current assets. In the accompanying financial statements, the portion of the property tax levy for the tax year 2009 collected during the current year has been recognized as revenue.

5. Defined Benefit Pension Plan

A. Plan Description

The County sponsors the Association County Commissioners of Georgia Restated Pension Plan for Whitfield County Employees (The Plan), which is a defined benefit pension plan.

The Plan provides retirement, disability, and death benefits to plan participants and beneficiaries. The Plan, through execution of the adoption agreement, is affiliated with the Association County Commissioners of Georgia Third Restated Defined Benefit Plan (The ACCG Plan), an agent multiple-employer pension plan, administered by GEBCorp. The ACCG, in its role as the Plan Sponsor, has the sole authority to amend the provisions of the ACCG Plan, as provided in Section 19.03 of the ACCG Plan document. The County has the authority to amend the adoption agreement, which defines the specific benefit provisions of the Plan, as provided in Section 19.02 of the ACCG Plan document.

The pension plan is audited by an independent auditor and a separate report is issued. A copy can be obtained from GEBCorp, 400 Galleria Parkway, Suite 1250, Atlanta, Georgia 30339.

All full-time County employees are eligible to participate in the Plan after completing three years of service. Benefits vest after five years of service. Participants become eligible to retire at the earlier of: a) age 65 with 5 years vested service or b) age 60 with 10 years of service. Upon eligibility to retire, participants are entitled to an annual benefit in the amount of 1.0% of average annual compensation up to \$6,600 plus 1.5% of average annual compensation in excess of \$6,600 plus \$36 for each year of service payable as a life annuity. For participants hired after January 1, 2003 the annual benefit is 1% of average annual compensation multiplied by years of service. Compensation is averaged over a five year period prior to retirement or termination. The Plan also provides benefits in the event of death or disability. These benefit provisions were established by an adoption agreement executed by the County Board of Commissioners.

County employees are not required to contribute to the Plan. The County contributes the entire cost of the Plan, using the actuarial basis described in the annual valuation report.

Retirees, beneficiaries, and disables receiving benefits	127
Terminated plan participants entitled to but not yet receiving benefits	270
Active employees participating in the plan	<u>395</u>
 Total number of plan participants	 <u>792</u>

B. Contributions

The County is required to contribute an actuarially determined amount annually to the Pension Plan's trust. The contribution amount is determined using actuarial methods and assumptions approved by the ACCG Plan trustees and must satisfy the minimum contribution requirement contained in the State of Georgia statutes. Administrative expenses are based on total covered compensation of active plan participants and are added to the state-required annual funding requirement.

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2009

5. Defined Benefit Pension Plan - continued

The Georgia Constitution enables the governing authority of the County, the Board of Commissioners, to establish, and amend from time to time the contribution rates for the County and its plan participants.

The County's payroll for employees covered by the Plan as of January 1, 2009 (the most recent actuarial valuation date) was \$14,981,485, (based on covered earnings for the preceding year).

The required contributions for the plan years 2009, 2008, and 2007 were \$1,460,073, \$1,141,515, and \$1,073,890, respectively. These amounts represent 9.7%, 8.2%, and 8.4% of covered payroll, respectively.

Annual pension cost: The County's annual pension cost and net pension obligation for the pension plan for the current year were determined as follows:

<u>Derivation of Annual Pension Cost</u>	<u>January 1, 2009</u>
Annual required contribution	\$ 1,460,073
Interest on net pension obligation	(276,865)
Amortization of net pension obligation	<u>296,240</u>
Annual pension cost	<u>\$ 1,479,448</u>

<u>Derivation of Net Pension Obligation</u>	
Annual pension cost for prior year	\$ 1,157,070
Actual contributions to plan for prior year	<u>(1,199,649)</u>
Increase in net pension obligation	(42,579)
Net pension obligation as of January 1, 2008	<u>(3,529,879)</u>
Net pension obligation as of January 1, 2009	<u>\$ (3,572,458)</u>

The information presented in the required supplementary schedules was determined as part of the actuarial valuation as of January 1, 2008. The following summarizes the actuarial methods and assumptions used in that valuation:

Valuation date:	January 1, 2009
Actuarial cost method:	Projected Unit Credit
Asset valuation method:	Market Value

Actuarial assumptions:	
Assumed rate of return on assets:	7.75% per annum
Expected future salary increases:	5.0% - 7.5% based on age
Expected annual inflation:	3.0% per annum

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2009

5. Defined Benefit Pension Plan - continued

Funded status – At December 31, 2009, the actuarial accrued liability for pension benefits was \$27,202,762 and actuarial value of assets set aside to fund this liability was \$25,904,426. The resulting unfunded accrued actuarial liability was \$1,298,336, and the funded ratio was 95.2%. The covered payroll was \$14,981,485, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 8.7%

The required schedule of funding progress immediately following the notes to the financial statements presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

The unfunded actuarial accrued liability is being amortized as a level percent of pay on a closed basis. The weighted average remaining amortization period as of January 1, 2009 was 10 years.

Trend Information for the Plan

6. Other Postemployment Benefits (OPEB) – Healthcare

Plan Description – The Whitfield County Retiree Health Insurance Plan was established to provide post employment benefits for eligible retirees and beneficiaries. The plan is a single-employer defined benefit health care plan providing coverage for medical and prescription drug benefits. The Board of Commissioners established the benefit provisions and may amend them as necessary. The Plan does not issue separate financial statements.

To be eligible for OPEB benefits, an employee must have been covered under the medical plan as an active member immediately prior to retirement, must be 1) at least age 60 with 10 years of service or 2) at least age 65 with 5 years of service. Participants who are not eligible for retirement at the time of termination are not eligible for benefits from the plan. Retirees may not resume coverage under the plan once coverage has lapsed. For 2009, there were 67 retirees and dependents receiving benefits.

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2009

6. Other Postemployment Benefits (OPEB) – Healthcare – continued

Funding policy – The funding policy of the County is to contribute to the plan the net claims paid during the year. The County covers the cost of administering the plan. The Board of Commissioners set the monthly contribution rates for active employees and retirees.

<u>Coverage</u>	<u>Retirees Cost</u>
Retiree	229.32
Retiree + spouse	417.48
Retiree + child	370.44
Retiree + family	515.40

Annual OPEB cost and Net OPEB obligation – The County had an actuarial valuation performed for the plan as of January 1, 2008 for the plan year ending December 31, 2009 to determine the employer's annual required contribution (ARC) for the period. The following summarizes the cost, contribution and net OPEB obligation at December 31, 2009.

<u>YEAR ENDED</u> <u>DECEMBER 31</u>	<u>ANNUAL</u> <u>OPEB COST</u>	<u>EMPLOYER</u> <u>CONTRIBUTION</u>	<u>PERCENTAGE</u> <u>CONTRIBUTED</u>

6. Other Postemployment Benefits (OPEB) – Healthcare – continued

Actuarial methods and assumptions – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The actuarial calculations are based on the types of benefits provided under the terms of the substantive plan at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. Actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the goal to reflect a long-term perspective.

Basis of Valuation

Current valuation date	January 1, 2008
Actuarial cost method	Projected Unit Credit
Amortization method	Level dollar, open, 30 years
Investment rate of return	4.0%
Inflation rate	2.5%
Medical cost trend rate	10% graded to 5% over 10 years

7. Deferred compensation plan

The County offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, which is available to all full-time County employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, and rights (until paid or made available to the employee or other beneficiary) are held in trust for the exclusive benefit of participants and their beneficiaries.

8. Cafeteria Plan

Whitfield County offers its employees a cafeteria plan created in accordance with Internal Revenue Code Section 125. The plan, available to all full-time County employees, allows any one or more of the following benefits to be acquired through salary redirection:

- Health Care Reimbursement (expenses not covered by group medical plan)
- Dependent Care Assistance
- Insurance Premium Payments
 - (a) Group Medical
 - (b) Group Term Life
 - (c) Dental
 - (d) Vision

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2009

8. Cafeteria Plan - continued

The amount of salary redirection is determined by each participant prior to the beginning of the plan year end and is irrevocable for such year.

Excess salary redirection amounts resulting from the failure of a participant to incur a qualified expense or to seek reimbursement in a timely manner is forfeited and credited to the benefit plan surplus. Surplus amounts are first used to defray administrative costs and experience losses with the remainder, if any, being distributed to participants on a per capita basis. Any potential charges for the administration of the plan are paid by the County. In 2009, there were no charges incurred.

9. Risk-management

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the Government carries commercial insurance. Only liability coverage is maintained for County vehicles. The County established a limited risk management program for employee health insurance in 1992. Premiums are available to pay claims, claims reserve, excess insurance coverage and administrative costs of the program. During the fiscal year 2009, a total of \$3,998,632 was paid in benefits and administrative costs. An excess coverage insurance policy covers individual claims in excess of \$75,000. Based upon past claims history, claims incurred but not reported are considered to be immaterial and have not been accrued.

The County has joined together with other governments in the State as part of the Georgia Interlocal Risk Management Agency Property and Liability Insurance Fund and the Association County Commissioners of Georgia (ACCG) Workers' Compensation Self Insurance Fund, public entity risk pools currently operating as common risk management and insurance programs for member local governments. As part of these risk pools, the County is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pool's agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the funds being required to pay any claim of loss. The County is also to allow the pool's agents and attorneys to represent the County in investigation, settlement discussions and all levels of litigation arising out of any claim made against the County within the scope of loss protection furnished by the funds.

The funds are to defend and protect the members of the funds against liability or loss as prescribed in the member government contract and in accordance with the workers' compensation law of Georgia. The funds are to pay all costs taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

Settled claims in the current year have not exceeded the coverages.

Claims and Judgments – Description

Significant losses experienced by the County are covered by commercial insurance for all risks except employee health care for which the County retains the risk of loss. For insured risks there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current year or through prior years.

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2009

9. Risk-management - continued

Claims Liabilities

The County records an estimated liability for indemnity health care, torts and other claims against the County. Claim liabilities are based on estimates of the ultimate cost of reportable claims (including future claim adjustment expenses) and an estimate for claims incurred but not reported based on historical experience.

Unpaid Claim Liabilities

The fund establishes a liability for both reported and unreported events, which includes estimates of both future payments of losses and related claims adjustment expenses.

The following represents the changes in approximate aggregate liabilities for the County from January 1, 2007 to December 31, 2009:

	HEALTH CARE
Liability balance December 31, 2006	\$ 290,610
Claims and changes in estimates	4,344,320
Claims payments	<u>(4,340,578)</u>
Liability balance December 31, 2007	294,352
Claims and changes in estimates	4,079,553
Claims payments	<u>(4,084,780)</u>
Liability balance December 31, 2008	289,125
Claims and changes in estimates	4,001,843
Claims payments	<u>(3,998,632)</u>
Liability balance December 31, 2009	<u><u>\$ 292,336</u></u>

10. Long-term debt

Intergovernmental Liability – In 1998, the County entered into a Utility Service Agreement with Dalton Utilities for the construction of water lines in the west side area of the county. In 2003, another agreement was entered into for the construction of water lines in the north side area. In 2007, the final phase of water lines was constructed. Dalton Utilities funded the costs of construction and Whitfield County guaranteed the payment of the interest on the outstanding debt for the projects. The payments on the first debt, beginning in 1999, are due quarterly over a twelve year period. The second agreement has payments beginning in 2003 for a nine year period, and the third agreement, beginning in 2007, has quarterly payments for ten years. Original debt on all phases was \$9,742,966. The annual requirements to amortize the intergovernmental liability outstanding at December 31, 2009 are as follows:

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS

	<u>\$ 2,889,684</u>	<u>\$ 395,257</u>	<u>\$ 3,284,941</u>

Revenue Bonds

On December 18, 2009, the County issued bonds through the Dalton-Whitfield Joint Development Authority in the amount of \$3,625,000. The bonds bear interest of 3.63% with a final maturity of December 15, 2019.

Proceeds from the sale of these bonds were used for the acquisition and development of land, including sewer for the Commerce Park I project. This project is to promote trade, commerce and economic development for the citizens of Whitfield County.

Pursuant to the bond issue, the County entered into an intergovernmental contract with the Dalton-Whitfield Joint Development Authority whereby the County has an unconditional obligation to provide funds for the bond payments. The County will exercise its power of taxation to the extent necessary, up to one mill per dollar of the assessed value of taxable property, to fulfill its obligation.

A summary of annual debt service requirements to the maturity for the bonds follows:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2010	305,000	130,491	435,491
2011	320,000	120,516	440,516

Capitalized Lease Obligations

The County leases certain land and buildings under non-cancelable capital leases that expire over the next four years. Included are the following amounts applicable to capital leases:

	<u>Enterprise Funds</u>
Building	\$ 5,605,000
Accumulated depreciation	<u>(4,513,822)</u>
Net leased property	<u>\$ 1,091,178</u>

The present value of future minimum capital lease payments, as of December 31, 2009 is as follows:

<u>Year Ending</u>	<u>Total Business-Type Activities</u>
2010	516,062
2011	<u>512,200</u>
Total minimum lease payments	1,028,262
Less amount representing interest	<u>(57,882)</u>
Present value of minimum capital lease payments	<u>\$ 970,380</u>

Changes in long-term liabilities --

Long-term liability activity for the year ended December 31, 2009 was as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Reductions</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
Governmental Activities:					
Intergovernmental Liability	\$ 3,832,173	\$ -	\$ (942,488)	\$ 2,889,685	\$ 754,296

Intergovernmental liabilities are liquidated by funds set aside from the special purpose local option sales tax in the debt service fund. The revenue bonds and compensated absences liability is liquidated by the general fund.

11. Interfund receivables/payables and transfers

Interfund balances at December 31, 2009, consisted of the following amounts and represent charges for services or reimbursable expenses. These remaining balances resulted from the time lag between the dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting period, and (3) payments between funds are made. The County expects to repay all interfund balances within one year.

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>

11. Interfund receivables/payables and transfers – continued

Transfers are primarily used to move funds from the general fund to finance various programs accounted for in other funds. Transfers to the capital projects fund are resources for future capital expenditures. Interfund receivables/payables are due to timing differences and are expected to be reimbursed during the fiscal year ending December 31, 2010.

12. Joint ventures

Dalton-Whitfield Solid Waste Management

The County and the City of Dalton share equally in operations of the Dalton-Whitfield Regional Solid Waste Management which operates solid waste disposal sites within Whitfield County. All budgetary and financial records are maintained by the City of Dalton. Administration is accomplished through a five member board with each government appointing two members and the fifth member being elected by the affirmative vote of the majority of the four appointed. Current expenses are funded through user fees and, if necessary, equal transfers from both governments. The County's equity interest in this joint venture is shown within the proprietary fund. The County's share of the resulting income or loss from the joint venture is shown separately as charge for services on the Statement of Activities.

State and federal laws and regulations require the Dalton-Whitfield Regional Solid Waste Management Authority to place a final cover on its landfill sites when they stop accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and post-closure care costs will be paid only near or after the date that the landfill stops accepting waste, the Authority reports a portion of the closure and post-closure care costs as a non-operating expense in each period based on landfill capacity used as of each balance sheet date.

The accrual for closure and post-closure cost is summarized by location as follows:

Landfill sites:	Westside	Old Dixie II, IV & V	Old Dixie VI Sites I & II	Old Dixie VI Site III & IV	Balefill	Total
Estimated future costs:						
Closure	Completed	Completed	\$ 3,220,000	\$ 2,210,000	\$ 1,765,000	\$ 7,195,000
Post-closure	\$ 875,000	\$ 2,155,000	2,160,000	1,490,000	1,240,000	7,920,000

December 31, 2009

12. Joint ventures - continued

The Authority will record the remaining estimated cost of closure and post-closure care costs of \$3,890,000 as the remaining capacity is filled. Estimated remaining landfill life is approximately 40 years. The above estimates are based on what it would cost to perform all closure and post-closure care in 2009. Actual costs when incurred may be higher due to inflation, changes in technology, or changes in laws and regulations.

The Authority's landfill closure and post-closure requirements are being funded from user fees and interest earned from investments. If these revenues are inadequate or additional post-closure care requirements are determined, these costs may need to be covered by charges to future landfill users.

According to the latest inspection reports issued by the Georgia Department of Natural Resources, dated December 2009, the Dalton-Whitfield Regional Solid Waste Management Authority was in compliance for closure and post-closure care financial assurance requirement as of December 31, 2009.

Condensed audited financial statements for the DWRSWMA at December 31, 2009 are as follows:

<u>Assets</u>	
Current assets	\$ 17,952,206

Northwest Georgia Trade & Convention Center Authority

The County participates with the City of Dalton in the Northwest Georgia Trade and Convention Center Authority. All budgetary and financial records are maintained by the City of Dalton. The County and City of Dalton share equally in the operations of the NWGTCCA, which operates to promote tourism, conventions, special events, and trade shows. Current expenses are funded through user fees, and, if necessary, equal transfers from both governments.

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2009

12. Joint ventures - continued

In 1991, Whitfield County and the City of Dalton entered into a twenty-year lease for the Northwest Georgia Trade & Convention Center facilities from the City of Dalton Building Authority. Lease payments, which correspond with payment on the Building Authority's revenue bonds, are due on January 1, and July 1, of each year. The lease contains a bargain purchase option, which can be exercised at any time after the bonds are retired or in conjunction with the early retirement of the bonds.

In 2003, the contractual authority converted to a legislative authority containing a seven member board composed of two members appointed by the City, two members appointed by the County, and three members, appointed by the four City and County appointees, representing the lodging, restaurant, and tourism industries respectively.

Due to the 2003 legislative act mentioned above and the eventual retirement of the bonds as stated in the first paragraph, the assets will transfer to the Authority. It is on this basis that the County is amortizing its capital investment including land over the remaining life of the bonds. The County's ownership interests ends upon the retirement of the bond.

The City of Dalton and Whitfield County shall each be required to fund one half (1/2) of an agreed-upon annual appropriation as the local government contributions to the Northwest Georgia Trade & Convention Center Authority as well as the debt service of the current 2003 bonds used to refinance the 1993 construction bond.

Condensed audited financial statements for the Northwest Georgia Trade and Convention Center Authority at December 31, 2009 are as follows:

Dalton-Whitfield Joint Development Authority

The County participates with the City of Dalton in the Dalton-Whitfield Joint Development Authority. All budgetary and financial records are maintained by the City of Dalton. The Dalton-Whitfield Joint Development Authority issued separate audited financial statements.

The County and City of Dalton share equally in operations of the Dalton-Whitfield Joint Development Authority, which operates to promote economic development within the City of Dalton and Whitfield County. Current expenditures are funded through equal transfer from both governments. The County's share of the resulting income or loss from the joint venture is shown separately as charge for services on the Statement of Activities.

Condensed unaudited financial statements for the Dalton-Whitfield Joint Development Authority at December 31, 2009 are as follows:

<u>Assets</u>

North Georgia Regional Development Center

Under Georgia law, the County, in conjunction with other cities and counties in the five county north Georgia area, is a member of the North Georgia Regional Development Center (RDC) and is required to pay annual dues thereto. During its year ended December 31, 2009, the County paid \$56,857 in such dues. Membership in a RDC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34 which provides for the organizational structure of the RDC in Georgia. The RDC Board membership includes the chief elected official of each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of a RDC. Separate financial statements may be obtained from: North Georgia Regional Development Center, 503 W. Waugh Street, Dalton, Georgia 30720.

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2009

13. Component Unit

The Whitfield County Department of Public Health is the only discretely presented component unit in the financial statements of Whitfield County, Georgia at December 31, 2009. The information shown on the component unit is extracted from the June 30, 2009 audited financial statements.

14. Commitments and contingencies

Legal Proceedings - The County is a defendant in various lawsuits. An accrual of \$100,000, representing the County's liability insurance deductible, was recorded at December 31, 2009 in the general fund.

Self-insurance programs - The County is self-insured for employee health claims

Grant programs - Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

Ambulance and Emergency Rescue Services - On September 14, 2009, the County entered into a new agreement with Hamilton Emergency Medical Services, Inc. The County pays for ambulance and emergency rescue services. The amount expended in 2009 and 2008 was \$616,130 and \$694,627, respectively. The contract terminates December 31, 2012.

Conduit debt - The Development Authority of Whitfield County issues Industrial Revenue Bonds to companies that locate in Whitfield County. At December 31, 2009, there were two outstanding bond issuances with an aggregate principal outstanding amount of \$10.2 million. The bonds do not constitute an indebtedness or pledge of the faith and credit of the Development Authority or the County.

15. Hotel/Motel Tax

Whitfield County, Georgia levies a hotel/motel tax in accordance with the provisions of OCGA 48-13-51. The amount expended for 2009 was \$194,050, which represents 100% of the tax receipts.

16. Subsequent Events

On April 6, 2010, the County executed a note to Spring Creek Properties, LLC for the purpose of purchasing real estate for the development of a recreational park in the west side of the County. The principal sum of the note is \$949,600 with annual principal payments of \$94,960 plus interest at 4.25% until 12/31/2019.

2006	21,839,331	21,088,880	103.6%	(750,451)	11,449,066	-6.6%
2007	23,963,872	23,058,259	103.9%	(905,613)	12,731,373	-7.1%
2008	23,618,963	24,492,734	96.4%	873,771	13,883,788	6.3%
2009	25,904,426	27,202,762	95.2%	1,298,336	14,981,485	8.7%

Analysis of the dollar amounts of actuarial value of assets available for benefits, actuarial accrued liability, and unfunded actuarial accrued liability in isolation can be misleading. Expressing the actuarial value of assets as a percentage of the actuarial accrued liability provides one indication of funded status on a going-concern basis. Analysis of this percentage over time indicates whether the system is becoming financially stronger or weaker. Generally, the greater this percentage, the stronger the Plan.

Trends in unfunded actuarial accrued liability and annual covered payroll are both affected by inflation. Expressing the unfunded actuarial accrued liability as a percentage of annual covered payroll approximately adjusts for the effects of inflation and aids analysis of the Plan's progress in accumulating sufficient assets to pay benefits when due. Generally, the smaller this percentage, the stronger the Plan.

SPECIAL REVENUE FUNDS

NON-MAJOR SPECIAL REVENUE FUNDS

These operating funds are used to account for the proceeds of specific revenue sources (other than fiduciary funds or for major capital projects) that are legally restricted as to use by the Federal or State Government and special purpose funds established by the County Board of Commissioners.

Governmental Law Library Fund - accounts for revenues and expenditures associated with maintaining a law library for attorneys practicing in state and county courts.

District Attorney Forfeiture Fund - accounts for revenues and expenditures associated with seized property through court ordered forfeitures for the purpose of enhancing law enforcement.

Sheriff's Forfeiture Fund - accounts for revenues and expenditures associated with seized property through court ordered forfeitures for the purpose of enhancing law enforcement.

911 Emergency System – accounts for revenues and expenditures associated with providing emergency services to telephone subscribers in Whitfield County.

Whitfield County Neighborhood Stabilization Program – accounts for revenues and expenditures associated with the purchase and redevelopment of foreclosed upon homes and residential properties, and can be used to purchase and rehabilitate homes and residential properties that have been abandoned or foreclosed upon in order to sell, rent, or redevelopment.

Tunnel Hill Transportation Enhancement Grant – accounts for revenues and expenditures associated with the construction of sidewalks and multi-use trails in and near the park in Tunnel Hill to link residential neighborhood and main highway to the park. This project will be complimented by picnic tables, kiosks, trash receptacles, and other amenities.

Conasauga A.D.R. Program - accounts for revenues and expenditures used to resolve cases before they reach the main court system by arbitration or mediation.

Divorce Seminar Fund - accounts for revenues and expenditures associated with the mandated course for anyone seeking divorce who has children.

Juvenile Service Fund - accounts for revenues and expenditures associated with juvenile court ordered supervision fees.

Local Victim Assistance Program - accounts for revenues and expenditures associated with a program to assist victims of crimes or abuse.

Drug Abuse Treatment and Education - accounts for revenues and expenditures associated with drug abuse treatment and education programs relating to controlled substances and marijuana.

Community HOME Investment Program (CHIP) - accounts for revenues and expenditures associated with the Community Development Block Grant (CDBG) to assist a special population of seven homeowners with the reconstruction of their homes.

Scenic By-Way Grant – accounts for revenues and expenditures associated with the construction of three trailheads; two in Whitfield County and one in Murray County. The trailheads are funded by a grant via the Federal Highway Administration and the Georgia Department of Transportation.

Crime Victim Assistance Grant - accounts for revenues and expenditures associated with providing approved services directly to victims of child abuse, spousal abuse, sexual assault or previously underserved victims of violent crimes.

Juvenile Court Tutorial Program - accounts for revenues and expenditures associated with grant funds through Children and Youth Coordinating Council (CYCC) to provide prevention programs for high-risk youth and treatment programs for juvenile offenders. This program will reduce factors that lead our youth to make poor decisions and will provide them with positive role models.

Mental Health Screening and Evaluation Services – accounts for revenues and expenditures associated with grant funds through Children and Youth Coordinating Council (CYCC) to support youth prevention programs in Georgia. The grant will reduce teen pregnancy through abstinence education, prevention programs for high-risk youth and treatment programs for juvenile offenders.

Georgia Civil War Heritage Trails – accounts for revenues from other governments and expenditures associated with the State of Georgia Civil War Heritage Trails project.

Hotel/Motel Tax Fund - accounts for revenues and expenditures associated with the county's hotel/motel room tax.

STATISTICAL SECTION

STATISTICAL SECTION

This part of Whitfield County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the county's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the county's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the factors affecting the county's ability to generate its property taxes.

Debt Capacity

These schedules contain information to help the reader assess the affordability of the county's current levels of outstanding debt and the county's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the county's financial activities take place and to help make comparisons over time and with other governments.

Operating Information

These schedules contain information about the county's operations and resources to help the reader understand how the county's financial information relates to the services the county provides and the activities it performs.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Commissioners
Whitfield County, Georgia

I have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Whitfield County, Georgia, as of and for the year ended December 31, 2009, which collectively comprise Whitfield County, Georgia's basic financial statements and have issued my report thereon dated May 28, 2010. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. I did not audit the financial statements of the component unit, Whitfield County Department of Public Health. Those financial statements as of June 30, 2009, were audited by other auditors whose report thereon has been furnished to me, and my opinion, insofar as it relates to the amounts included for Whitfield County Department of Public Health, is based on the report of the other auditors.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered Whitfield County, Georgia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Whitfield County, Georgia's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of Whitfield County, Georgia's internal control over financial reporting.

My consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over financial reporting that might be significant deficiencies or material weaknesses. However, as discussed below, I identified certain deficiencies in internal control over financial reporting that I consider to be significant deficiencies.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or to detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects Whitfield County, Georgia's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such

that there is more than a remote likelihood that a misstatement of Whitfield County, Georgia's financial statements that is more than inconsequential will not be prevented or detected by Whitfield County, Georgia's internal control. I consider the deficiencies described in the accompanying schedule of findings and questioned costs to be significant deficiencies in internal control over financial reporting. They include items FS09-01 through FS09-02.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by Whitfield County, Georgia's internal control.

My consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. However, I believe that the significant deficiencies described above are not material weaknesses.

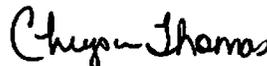

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Whitfield County, Georgia's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

I noted certain matters that I reported to management of Whitfield County, Georgia, in a separate letter dated May 28, 2010.

Whitfield County, Georgia's response to the findings identified in my audit is described in the accompanying schedule of findings and questioned costs. I did not audit Whitfield County, Georgia's response and, accordingly, I express no opinion on it.

This report is intended solely for the information and use of management, and the Board of Commissioners and is not intended to be and should not be used by anyone other than these specified parties.

**REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND ON INTERNAL CONTROL
OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Board of Commissioners
Whitfield County, Georgia

I have audited the compliance of Whitfield County, Georgia with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended December 31, 2009. Whitfield County, Georgia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Whitfield County, Georgia's management. My responsibility is to express an opinion on Whitfield County, Georgia's compliance based on my audit.

I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Whitfield County, Georgia's compliance with those requirements and performing such other procedures, as I considered necessary in the circumstances. I believe that my audit provides a reasonable basis for my opinion. My audit does not provide a legal determination of Whitfield County, Georgia's compliance with those requirements.

In my opinion, Whitfield County, Georgia complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended December 31, 2009.

Internal Control Over Compliance

The management of Whitfield County, Georgia is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing my audit, I considered Whitfield County, Georgia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine my auditing procedures for the purpose of expressing my opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of Whitfield County, Georgia's internal control over compliance.

P.O. Box 1066 Trion, Georgia 30753 (706)734-4377 cthomas2@windstream.net

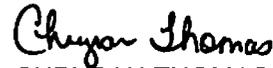

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses, as defined above.

Whitfield County, Georgia's response to the findings identified in my audit is described in the accompanying schedule of findings and questioned costs. I did not audit Whitfield County, Georgia's response and, accordingly, I express no opinion on it.

This report is intended solely for the information and use of management, Board of Commissioners, and others within the entity, and federal awarding agencies and pass-through entities, is not intended to be, and should not be used by anyone other than these specified parties.

Type of auditor's report issued: **Unqualified**

Internal control over financial reporting:
Material weakness(es) identified? **No**
Significant deficiencies identified that
are not considered to be material
weakness(es)? **Yes**

Noncompliance material to the financial statements note? **No**

Federal Awards

Internal control over major programs:
Material weakness(es) identified: **No**
Significant deficiencies identified that
are not considered to be material
weakness(es)? **None reported**

Type of Auditor's report issued on compliance for major programs: **Unqualified**

Any audit findings which are required to be reported under Section .510(a) of
OMB Circular A-133: **No**

Major programs:

- (a) **U.S. Department of Housing and Urban Development
Community Home Investment Program
CFDA #14.239**
- (b) **U.S. Department of Transportation
Capital Improvement Assistance Grant
Transit Operating Assistance Grant
CFDA #20.509**

Dollar threshold used to distinguish between Type A and Type B programs: **\$300,000**

Auditee qualified as a low-risk auditee under Section .530 of OMB Circular A-133: **No**

**Findings Relating to the Financial Statements
Reported in Accordance with Government Auditing Standards**

There were no findings related to the financial statements reported in accordance with Government Auditing Standards for the year ended December 31, 2009.

Findings and Questioned Costs Relating to Federal Awards

There were no findings relating to Federal awards for the year ended December 31, 2009.

**WHITFIELD COUNTY, GEORGIA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED DECEMBER 31, 2009**

Financial Statement Findings

FS09-01 **Criteria:** Agency funds are used to account for resources held by the County, primarily the elected officials, in a purely custodial capacity, which means that all funds held are owed to other governments, organizations, or individuals. Due to the nature of these funds, it is important that adequate records be maintained to account for receipts, disbursements, and any residual funds that are held to be paid at a later date. Such listings should be reconciled to the respective cash balances maintained.

Condition: During my audit of the Sheriff's Office, the comprehensive detail listing provided did not reconcile to the balance of funds being held in the commissary cash account at December 31, 2009.

Cause: This unknown amount is due to the lack of maintenance of proper subsidiary listings and tracking of receipts and disbursements. Neither were there procedures in place for routine reviews of the reconciling balances on a monthly or annual basis.

Effect: Accounting data could be misstated.

Recommendation: I recommend procedures be implemented to require reports be prepared and reconciled on a weekly, monthly, and annual basis. Reviews and monitoring of these procedures on a timely basis should also be implemented.

Management Response: We agree with the finding. We are working on reconciling the detail listing to the cash balance at December 31, 2009.

FS09-02 **Criteria:** Internal controls should be in place which provides reasonable assurance that proper revenue is received and recorded.

Condition: Internal controls were not designed to detect the incorrect revenue received and recorded in the Emergency 911 fund. During my audit of this fund I noted instances where the amount remitted by the telephone providers was not the state determined per line amount collected by them.

Cause: There was no review of the receipts from the telephone providers by anyone who would have detected the wrong per line charge during the normal course of business.

Effect: This deficiency caused revenue not to be collected that should have been.

Recommendation: Internal controls should be implemented that would detect when the correct amount of revenue is not received. Oversight should be provided and data reviewed by someone in the Emergency 911 department that would assure that the proper revenue is being received.

Management response: We agree with this finding. We are working on trying to determine if the amounts not received will be corrected and remitted to us. We are also working on implementing procedures that would detect this in the future in a timely manner. This would include implementing reviews by an official in this department.

Federal Awards Findings and Questioned Costs

None noted.
