June 8, 2012

The Honorable W. Michael Babb, Chairman
Honorable Commissioners Harold Brooker, Greg Jones, Gordon Morehouse and Robby Staten
And Citizens of Whitfield County, Georgia

State law requires that all general-purpose local governments publish within six months of the close of each fiscal year, unless an extension has been approved, a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of Whitfield County for the fiscal year ended December 31, 2011.

This report consists of management's representations concerning the finances of Whitfield County. Consequently, management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, management of Whitfield County has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the Whitfield County financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the Whitfield County comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The Whitfield County financial statements have been audited by Chrysan Thomas, C.P.A., PC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of Whitfield County for the fiscal year ended December 31, 2011 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the Whitfield County financial statements for the fiscal year ended December 31, 2011 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The Whitfield County MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

Whitfield County is located in the northwest portion of Georgia. It is considered to be the economic hub of the region. Whitfield County occupies a land area of 290 square miles and serves a population of 103,184. Whitfield County is empowered to levy a property tax on both real and personal properties located within its boundaries.

Whitfield County has been operating under a Board-administrator form of government since 1971. Policy-making and legislative authority are vested in the Board of Commissioners consisting of a Chairman elected at-large and four commissioners from four separate districts also elected at-large on a partisan basis. The Chairman and Commissioners serve four-year staggered terms. The Board of Commissioners are responsible for passing ordinances, adopting the budget, appointing committees, and hiring the government's manager, attorney and auditors in addition to other duties. The County Administrator is responsible for carrying out the policies and ordinances of the Board of Commissioners, for overseeing the day-to-day operations of the government, and for hiring/firing the heads of various departments under the Board of Commissioners.

Whitfield County Government provides a full range of services, including police protection via the Sheriff's Department, maintenance of roads and other infrastructures, inspections and enforcement, court services, jail, information technology services, 911, fire protection, animal control, parks and recreation, emergency management, planning and zoning, storm water management, and transit services among others.

The annual budget serves as the foundation for Whitfield County's financial planning and control. All departments of the Whitfield County Government are required to submit requests for appropriation to the County Administrator who, in turn, submits a recommended budget for the Board of Commissioners to review by the second Monday in November. The Board of Commissioners may then hold a budget hearing. After holding a public hearing on the proposed budget, the final budget must be adopted no later than December 31st. The appropriated budget is prepared by fund and department. Department heads may make transfers of appropriations within a department with the exception of salaries and benefits. Transfers of appropriations from salaries and benefits, or between departments, however, require the special approval of the Board of Commissioners. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted.

Factors Affecting Financial Conditions

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which Whitfield County operates.

Local Economy. The impact of the economic downturn has continued to affect Whitfield County and the recovery has been very sluggish. Because most of the County relies on the carpet industry, which has continued to suffer, the County has seen some of the highest unemployment rates in both Georgia and nationwide; however, unemployment dipped slightly from 12.4% at the end of 2010 to 11.8% at the end of 2011. Revised information available shows unemployment at 10.9% for April 2012.

To aid in the economic development of the County, the County has purchased land and constructed or began construction of two industrial parks. The first, built in 2009, became the home of IVC US, Inc. IVC began production of vinyl floorcovering in 2011 resulting in an estimated 450 jobs. The second park was purchased in 2010 in the Carbondale area and was named the Carbondale Business Park. Construction of Phase I of the road was started this year and will be completed in 2012. Carbondale is a much larger site and will bring in an estimated 2,000 jobs to the County along with \$100 million in capital investment.

The anchor tenant for the Carbondale Business Park has already completed their build-out and is operational. The County also received a grant for a portion of the roadway within the business park. All due diligence has been completed for the site and the County continues to receive prospects on a regular basis. Additionally, the Park has I-75 frontage.

The County also entered into a public-private project with Engineered Floors located on Enterprise Dr. The company is projected to initially employ approximately 200 people in Phase I with more phases to follow. The County received a grant from the US Department of Commerce for the extension of Enterprise Dr. north to the road parallel to the South Dalton Bypass. The grant also includes other improvements such as signalization at the intersection to the bypass.

Both public and private schools in Whitfield County are major contributors to the local economy in the form of employment opportunities and capital investments being made in new and expanded school facilities.

Whitfield County has an employed labor force of over 38,000. The per capita income of those living in Whitfield County has dropped to \$28,588, based on the latest available data.

Long-Term Financial Planning. Whitfield County voters passed a \$48,000,000 special purpose local option sales tax (SPLOST) in 2008 to finance roads, streets, and bridges capital outlay projects for the use and benefit of the County and qualified municipalities within the County. These projects are on-going with the County now in having completed the final year of the 3 year SPLOST collections with work that will continue into 2012.

Cash Management. The County effectively utilized several investment vehicles during the report year. All funds, except those immediately required to cover checks, were invested in interest bearing checking and savings accounts, the State of Georgia Local Government Investment Pool (LGIP), and the Georgia Extended Asset Pool (GEAP).

Risk Management. The County maintains a self-insured health insurance program. Funds are budgeted to pay claims, claims reserve, excess insurance coverage and administrative costs of the self-insured health insurance program. The County has joined together with other governments in Georgia as part of the Association County Commissioners of Georgia (ACCG) Inter-local Risk Management Agency (IRMA) property and liability insurance fund and the ACCG Group Self-Insurance Worker's Compensation Fund.

Other Information

Independent Audit. Georgia Code requires an annual audit of the books of account, financial records, and transactions of all administrative departments of the County by independent certified public accountants selected by the County Board of Commissioners. This requirement has been met and the auditor's unqualified opinion has been included in this report.

Awards. The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for its comprehensive annual financial report for the fiscal year ended December 31, 2010. In order to be awarded a Certificate of Achievement, the County published an easily readable and efficiently organized comprehensive annual financial report. This report satisfied both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements. We are submitting it to GFOA to determine its eligibility for another Certificate.

Acknowledgments.

The preparation of this comprehensive annual financial report could not have been accomplished without the dedication and contributions of the entire Finance Department Staff, the Auditors of the County, and the cooperation of the various elected officials and appointed management.

In closing, we also wish to acknowledge the valuable contribution of the Board of Commissioners. Without their guidance and leadership, preparation of this report would not have been possible.

Respectfully Submitted,

Mark Gibson
County Administrator

INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners
Whitfield County, Georgia

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Whitfield County, Georgia, as of and for the year ended December 31, 2011, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Whitfield County, Georgia's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the component unit, Whitfield County Department of Public Health. Those financial statements as of June 30, 2011 were audited by other auditors whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for Whitfield County Department of Public Health, is based on the reports of the other auditors.

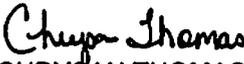

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit and the report of other auditors provide a reasonable basis for our opinions.

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Whitfield County, Georgia as of December 31, 2011, and the respective changes in financial position and, where applicable, cash flows thereof, and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued a report dated June 5, 2012 on our consideration of Whitfield County, Georgia's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and important for assessing the results of our audit.

The Management's Discussion and Analysis (pages 10 through 22), and Analysis of Funding Progress (page 68) are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We and the other auditors have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Whitfield County, Georgia's basic financial statements. The introductory section, combining and individual non-major fund financial statements and budgetary comparison schedules, the Schedule of Expenditures for Construction Projects Funded by Special Purpose Local Option Sales and Use Tax, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of Whitfield County, Georgia. The combining and individual non-major fund financial statements and budgetary comparison schedules, the Schedule of Expenditures of Federal Awards, and the Schedule of Expenditures for Construction Projects Funded by Special Purpose Local Option Sales and Use Tax have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

**MANAGEMENT DISCUSSION
AND ANALYSIS**

WHITFIELD COUNTY, GEORGIA
MANAGEMENT'S DISCUSSION AND ANALYSIS
Year Ended December 31, 2011

Within this section of the Whitfield County, Georgia (The County) Comprehensive Annual Financial Report (CAFR), the County's management provides narrative discussion and analysis of the financial activities of the County for the year ended December 31, 2011. The County's financial performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section. Additional information is available in the transmittal letter which precedes Management's Discussion and Analysis. The discussion focuses on the County's primary government and, unless otherwise noted, component units reported separately from the primary government are not included.

FINANCIAL HIGHLIGHTS

- ▶ The County's assets exceeded its liabilities by \$359.9 million (net assets) for the calendar year reported. This represents a decrease of \$24.4 million from the prior year.
- ▶ Total net assets are comprised of the following:
 - (1) Capital assets, net of related debt of \$298.2 million includes property and equipment, net of accumulated depreciation, and reduced for outstanding debt related to the purchase or construction of capital assets.
 - (2) Net assets of \$41.6 million are restricted by constraints imposed from outside the County such as debt covenants, grantors, laws, or regulations.
 - (3) Unrestricted net assets of \$20 million represent the portion available to maintain the County's continuing obligations to citizens and creditors.
- ▶ The County's governmental funds reported a total ending fund balance of \$56.5 million this year. The fund balance decreased by \$7.4 million from the prior year fund balance of \$63.9 million.
- ▶ General fund's unassigned fund balance at the end of the calendar year was \$14.5 million, or 38.8% of total general fund expenditures.
- ▶ Business-type activities enterprise funds reported total ending net assets of \$16.2 million as of December 31, 2011. This reflects a decrease of \$556,286 from the prior year.

The above financial highlights are explained in more detail in the "financial analysis" section of this document.

OVERVIEW OF THE FINANCIAL STATEMENT

This discussion and analysis is intended to serve as an introduction to Whitfield County's basic financial statements. The County's basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. The County also includes in this report additional information to supplement the basic financial statements. Comparative data is presented when available.

Government-wide Financial Statements (Reporting the County as a Whole)

The County's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the County's overall status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of activities between funds.

The County's government-wide financial statements include the State of Net Assets and the State of Activities. The statement of net assets is the government-wide statement of position presenting information that includes all of the County's assets and liabilities, with the difference reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County as a whole is improving or deteriorating. Evaluation of the overall health of the County would extend to other nonfinancial factors such as diversification of the taxpayer base or the condition of County infrastructure, in addition to the financial information provided in this report.

The Statement of Activities reports the revenues and expenses of the County. This statement is prepared using the accrual basis of accounting where revenues are recognized when earned and expenses are recognized when incurred. All current year revenues and expenses are included regardless of when cash is received or paid. The difference is described as the change in net assets. An important purpose of the design of the statement of activities is to show the financial reliance of the County's distinct activities or functions on revenues provided by the County's taxpayers.

Whitfield County divides the Statement of Net Assets and the Statement of Activities into three types of activities:

- (1) **Governmental Activities** – The activities reported in this category are the County's basic services such as general administration, judicial, public safety, public works, health and welfare, housing and development and culture and recreation. These activities are principally supported by taxes and intergovernmental transfers.
- (2) **Business-type Activities** – The activities reported in this category include the Whitfield Transit System. The County receives capital and operating grants which covers all or a significant portion of costs for the services provided. Also included are the net costs of the Northwest Georgia Trade and Convention Center Authority and the Dalton-Whitfield Regional Solid Waste Management Authority, which are joint ventures with the City of Dalton.
- (3) **Discretely Presented Component Unit** – Component units are legally separate organizations for which the elected officials of the County are financially accountable. The Whitfield County Health Department is presented as a component unit for Whitfield County.

The government-wide financial statements are presented on pages 24 through 25 of this report.

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The County uses funds to track specific resources and expenditures, either for management purposes or because of legal mandates. Within the basic financial statements, fund financial statements focus on the County's most significant funds rather than the County as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for non-major funds is provided in the form of combining statements in a later section of this report.

The County's funds are divided into three categories:

- ▶ **Governmental Funds** – These funds account for basically the same functions reported as governmental activities in the government-wide financial statements. However, fund financial statements are reported using the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The focus is on the short-term view of the County's general government operations and the services provided. These statements are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund operating statement provide a reconciliation to assist in understanding the differences between these two perspectives.

The basic governmental fund financial statements are presented on pages 26 through 29 of this report.

Individual fund information for non-major governmental funds is found in combining statements in a later section of this report.

- ▶ **Proprietary Funds** – These funds are reported in the fund financial statements and generally report services for which the County charges customers a fee. The County proprietary funds are classified as enterprise funds and internal service funds. Enterprise funds essentially encompass the same functions reported as business-type activities in the government-wide statements. Services are provided to customers external to the County organization for the 5311 Public Transportation System. Services provided by the two joint ventures to customers include landfill services and a public trade and convention center. Internal service funds are an accounting device used to account for services provided and billed on an internal basis. The County utilizes an internal service fund for workers compensation. The internal service fund is reported as governmental activities on the government-wide statement.
- ▶ **Fiduciary Funds** – These funds are used to account for assets held by the County in a fiduciary capacity. The County's fiduciary agency funds include the Clerk of Court, Probate Court, Magistrate Court, Sheriff, Juvenile Court and Tax Commissioner. The funds are collected by the County on the behalf of individuals and other governmental entities.

Notes to the Basic Financial Statements

The accompanying notes to the financial statements provide information essential to a full understanding of the government-wide and fund financial statements. The notes to the financial statements begin on page 40 of this report.

Other Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the County's budget presentations. Budgetary comparison statements are included as "required supplementary information" for the general fund. Budgetary comparison schedules for all other governmental funds can be found in a later section of this report. Budgetary comparison information is also provided for the Whitfield Transit System which is a non-major enterprise fund. These statements and schedules demonstrate compliance with the County's adopted and final revised budget. Required supplementary information can be found on page 68 of this report.

As discussed, the County reports major funds in the basic financial statements. Combining and individual statements and schedules for non-major funds are presented in a subsequent section of this report beginning on page 69.

GOVERNMENT-WIDE FINANCIAL STATEMENTS

Net assets may serve over time as a useful indicator of a government's financial position as information is accumulated on a consistent basis. The County's net assets at December 31, 2011 are \$359.9 million. The following table provides a summary of the County's net assets.

	Governmental Activities		Business Activities		Total

As a whole, the County's net assets decreased \$24.4 million during 2011. The governmental activities net assets decreased \$23.8 million while the business-type activities net assets only decreased \$556,286. The decrease in governmental activities of 6.5% is attributable to the expiration of SPLOST revenues, continuation of SPLOST projects, and depreciation expense. Business-type activities decreased 3.3% due to a loss of the Dalton-Whitfield Solid Waste Management Authority and the Northwest Georgia Trade and Convention Center. Total spent for buildings, land and infrastructure totaled \$9.9 million.

Net assets invested in capital assets, net of related debt is the largest of net assets at \$298.2 million (82.8%) and reflects the County's investments in capital assets net of any debt associated with those assets. Capital assets include buildings, vehicles, equipment and fixtures and infrastructure. Restricted assets total \$41.6 million (11.6%) of total net assets and represent the portion of net assets that are restricted for use by externally imposed constraints or constraints imposed by law in regards to use.

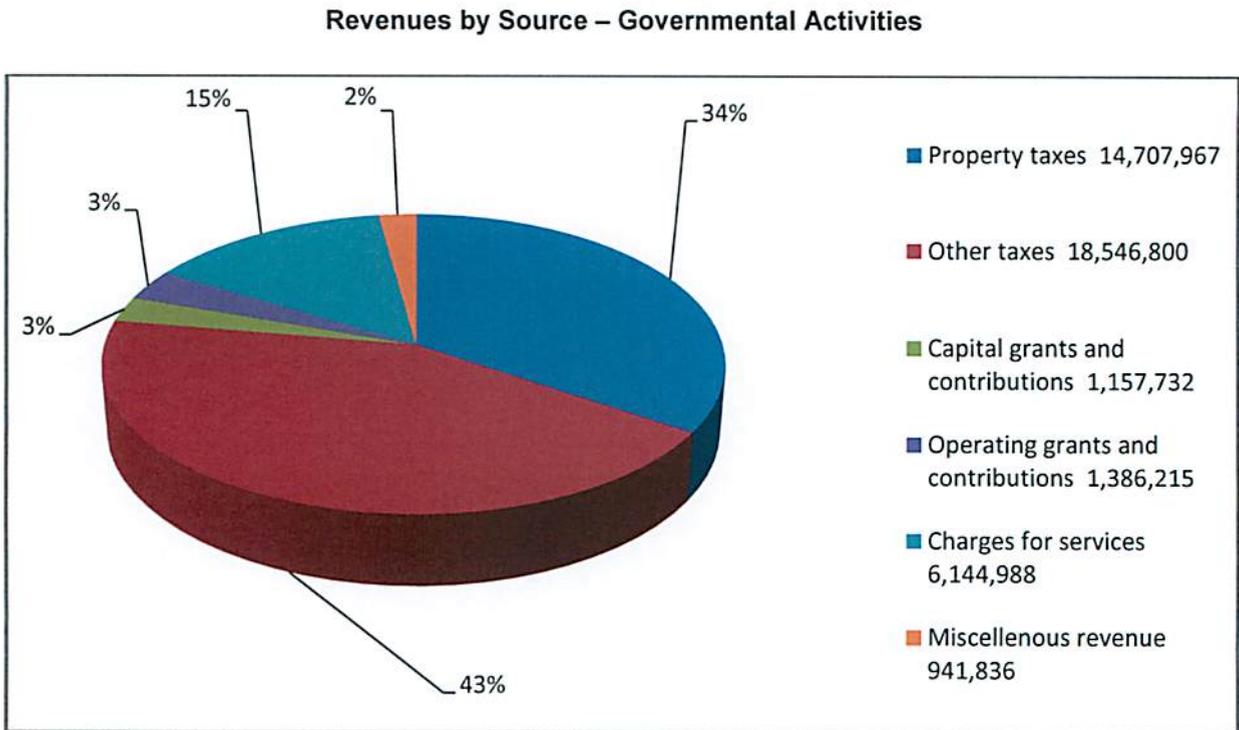

The unrestricted portion of the County's net assets totals \$20 million (5.6%). Unrestricted net assets are the portion of net assets that is available for spending.

The following table provides a summary of the County's changes in net assets:

Governmental Activities

The following chart depicts revenues of the governmental activities for the year ended December 31, 2011:

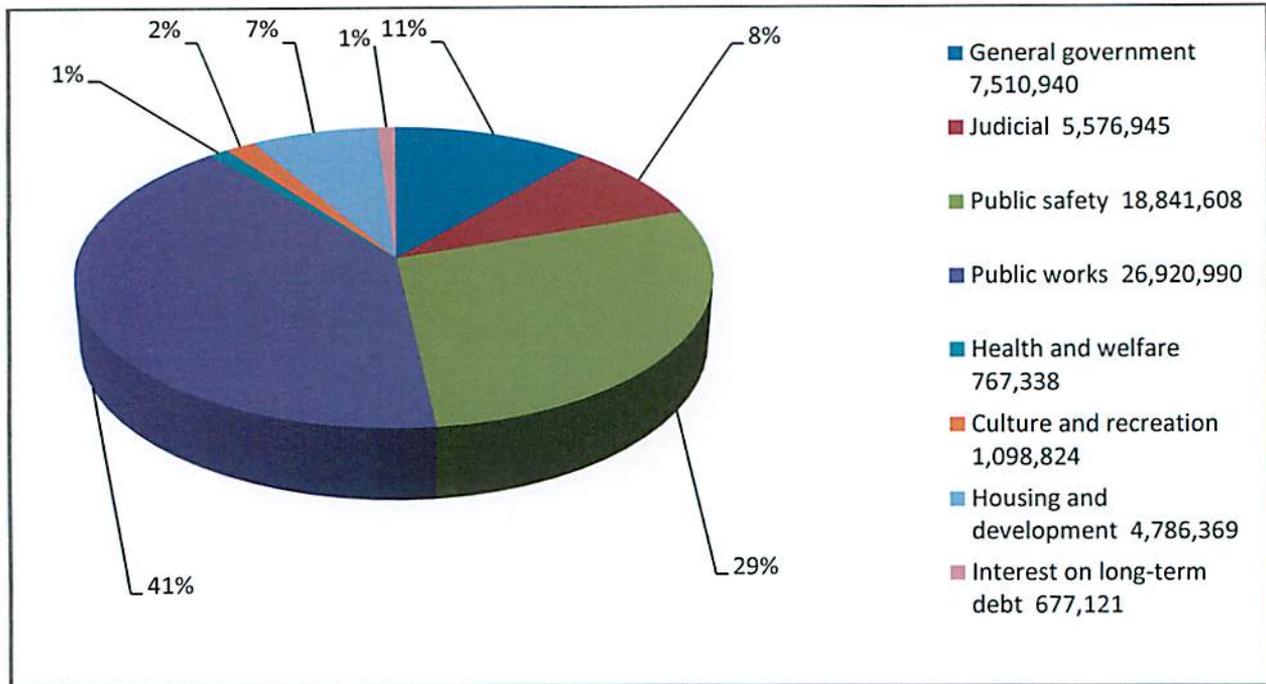

As indicated by the revenue chart, other taxes were the largest source for governmental activities which include sales tax, insurance premium tax, hotel motel tax and alcohol beverage tax. Sales taxes for the current year were \$14,710,223, only slightly above property taxes. The County's governmental activities total revenues decreased \$18.2 million (29.9%).

Revenue:

- ▶ Property taxes only decreased \$239,011 even with a 2% decrease in assessed property values and the implementation of a 100% Freeport exemption.
- ▶ Sales taxes decreased \$16,440,373 (53%) due to the expiration of SPLOST revenues.
- ▶ Operating grants and contributions decreased \$1.5 million (52%) primarily due to a one-time payment of \$1.5 million from the Dalton-Whitfield Solid Waste Authority in 2010.
- ▶ Charge for services decreased \$140,060 from various sources, with the most significant decrease from 911 subscriber fees.
- ▶ Capital grants and contributions decreased \$247,108 primarily due to the conclusion of existing grants and the reduction of funds awarded.

The following chart depicts expenses of the governmental activities for the year ended December 31, 2011:

Expenses by Function – Governmental Activities

As indicated by the expense chart, the largest use of County resources was for public works followed by public safety services such as Sheriff's Department, Jail, Fire, Coroner, Animal Control and Emergency Management. The County's governmental activities total expenses decreased \$6.6 million (9.1%). The decrease was primarily due to an overall implementation of furloughs, reduction in health costs and a one-time waiver of pension contributions.

Expenses:

- ▶ General government decreased \$1.5 million due to the above reasons.
- ▶ Public works decreased \$2.5 million due to the above reasons.
- ▶ Public safety decreased \$2.8 million due to the above reasons.
- ▶ Judicial decreased \$1 million due to the above reasons.
- ▶ Health and welfare decreased \$715,172 due to a reduction in contributions to the Whitfield County Health Department and Family and Children Services.
- ▶ Culture and recreation decreased \$320,157 due to the above reasons
- ▶ Housing and development increased \$1.9 million due to the costs of land acquisition and site development for "Project Shield" to expand industry within the County.
- ▶ Interest and long-term debt increased \$377,947 for note payments to Spring Creek Properties, capital lease payments and long-term debt payments on bonds that have been issued.

Business-type Activities

The County's business-type activities total revenues increased \$106,135 and expenses decreased \$1,094,847.

Revenues:

- ▶ Charges for services decreased \$30,175 which is attributable to the operational income in 2010 for the Northwest Georgia Trade and Convention Center versus a loss in 2011, netted with an increase in farebox rates and ridership for the Whitfield Transit System.
- ▶ Operating grant and contributions increased \$54,543 due to additional grant funds received through the 5311 Transit grant for operational purposes.
- ▶ Capital grant and contributions increased \$81,767 due to two additional buses received through the 5311 Transit grant for the Whitfield Transit System.

Expenses:

- ▶ Expenses for the Northwest Georgia Trade and Convention Center increased \$167,309. Bonds have been retired and assets transferred to the NWGTCC authority; therefore, the activity is reflected as a joint venture.
- ▶ Expenses for the Dalton-Whitfield Regional Solid Waste Management Authority decreased \$1.3 million over 2010 expenses, which is attributable to a one-time intergovernmental expense paid out in 2010 to the City and County. The County and City share equally in operations of the Dalton-Whitfield Regional Solid Waste Management which operates solid waste disposal sites within Whitfield County.
- ▶ Whitfield Transit System reflects no significant change in expenses.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

Governmental Funds

As discussed, the focus of governmental funds is on current financial resources. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported ending fund balances of \$56.5 million. Of this year-end total, \$1.7 million will be used to retire debt and \$36.9 million will be used to satisfy other restricted purposes.

The total ending fund balances of governmental funds reflect a decrease of \$7.4 million from the prior year. The general fund reported an increase of \$861,758 (6.2%) and other governmental funds reported a decrease of \$8.3 million (16.6%), primarily due to the expiration of SPLOST and the continuation of SPLOST construction projects.

Major Governmental Funds

General Fund:

The General Fund is the County's primary operating fund and is used to account for all governmental financial resources not restricted by state or federal laws, local ordinances, or other externally imposed requirements. At the end of 2011, the fund balance of the General Fund was \$14.8 million. Unassigned

fund balance represents 38.8% of General Fund expenditures, an increase from the prior year, which was at 30.4% of total expenditures.

General Fund revenues of \$39.5 million exceeded the budget by \$590,004, and the expenditures of \$37.3 million were slightly under the budget by \$266,732. Other financing sources and uses were under budget by \$5,022.

The General Fund's ending fund balance increased \$861,758 and is primarily attributable to a one-time waiver of pension contributions.

Capital Projects Funds:

- ▶ The SPLOST-Capital Projects Fund is used to account for the acquisition and construction of major capital assets. Revenues are derived primarily from the special purpose local option sales taxes and earnings on investments. This SPLOST expired at the end of 2010; however these funds are restricted to complete various infrastructure projects. At the end of 2011, the fund balance was \$32 million which reflects a decrease of 18.4% from the prior year.

Total revenues for 2011 were \$628,617 of which \$205,752 was special purpose local option sales tax adjustments, \$375,915 from federal and state awards, and investment earnings of \$46,950.

Total expenditures were \$7.9 million for various infrastructure projects.

- ▶ Capital Projects Acquisition Fund is used to account for the acquisition of capital expenditures. Revenues are derived from financing resources transferred from the general fund, bond proceeds and capital lease financing. At the end of 2011, the fund balance was \$5.6 million which reflects a decrease of 5.6% from the prior year.

Total revenues for 2011 were \$4.3 million. The Board of Commissioners issued a new bond for \$3.2 million for the land acquisition and site development for "Project Shield" to expand industry within the County. The other major source of revenue was a transfer from the general fund of \$939,250.

Total expenditures were \$4.6 million of which \$2.6 was spent on land acquisition and site development for "Project Shield", \$855,853 was spent on the Carbondale Business Park, \$116,193 was spent at the Westside Park and other expenditures were for the acquisition of vehicles and equipment for various departments.

Proprietary Funds

The proprietary funds share the same focus as the government-wide statements, reporting both short-term and long-term information about financial status. This provides a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of activities between funds.

GENERAL FUND BUDGETARY HIGHLIGHTS

Throughout the year, the Board of Commissioners revised the adopted budget by various budget transfers and amendments. The General Fund adopted budget had five amendments that resulted in budgeted revenues being slightly increased by \$211,854, budgeted expenditures being decreased by \$3,138,232, and other financing sources (uses) decreased \$14,989. The following addresses the major differences between the original adopted and the final adjusted budget:

Revenue:

- ▶ Increase of \$999,700 for motor vehicle and mobile home taxes that was omitted from the original budget.
- ▶ Increase of \$150,000 for increase in local option sales taxes.
- ▶ Increase of \$269,000 for increase in insurance premium taxes.
- ▶ Decrease of \$1,179,108 to remove \$1.5 million projected from the Dalton-Whitfield Solid Waste Management Authority that was erroneously included in the original budget. The difference accounts for additional federal funds for various grants or programs.
- ▶ Decrease of \$281,050 in charges for services primarily to reduce the amount of commissions and fees collected by the Tax Commissioner.
- ▶ Increase of \$99,500 from the various courts for fines and forfeitures.

Expenditures:

- ▶ Decrease of \$1,691,903 in departmental expenditures for a one-time waiver of pension contributions.
- ▶ Decrease of \$1,275,902 in departmental expenditures for reduction in health care costs.
- ▶ Increase of \$296,700 for longevity pay.
- ▶ Decrease of \$317,411 in overtime pay.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The County's investment in capital assets, net of accumulated depreciation for governmental and business-type activities as of December 31, 2011, was \$312 million and \$175,049, respectively. Total capital assets activity for the County as a whole decreased by \$14 million. See Note 4 for additional information about changes in capital assets during the calendar year. The following table provides a summary of capital assets activity.

Long-term Debt

As of December 31, 2011, Whitfield County had total capital leases, revenue bonds, notes payable and intergovernmental liabilities of \$18.2 million. This is an increase of \$1.4 million from the prior year. Whitfield County issued economic development bonds in the amount of \$3.2 million. These funds will be used for land acquisition and site development for "Project Shield" to expand industry within the County. See Note 10 for additional information on Whitfield County's long-term debt.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

Whitfield County's unemployment rate of 11.8% continues to exceed the state and national rates. The high unemployment rate is still attributable to the downturn in the nation's housing industry that directly influences the manufacturing jobs in the flooring industry.

The County's assessed net taxable digest decreased 2.2% in 2011. With the 100% Freeport tax exemption that was implemented during this calendar year, the County expects the assessed taxable digest to further decrease for 2012. In 2011, the millage rate remained the same. Even with the downturn in the economy, the County has been able to keep the same millage rate for the past four years.

The 2012 General Fund budget reflects a 10.3% decrease in revenues when compared to 2011 actual revenues. The majority of the decrease is attributable to a very conservative projection for property taxes due to an anticipated decrease in the net assessed taxable digest and the assumption that more businesses will be taking advantage of the 100% Freeport. Budgeted expenditures for 2012 reflect a 7.2% increase when compared to 2011 actual expenditures. The County's adopted 2012 General Fund operating budget anticipates revenues falling short of expenditures and other financing sources (uses) by \$6.1 million. It is the County's expectation that revenues can be adjusted in 2012 to offset a portion of this shortfall; however, a millage increase is anticipated.

Other factors considered when preparing the 2012 budget included:

- ▶ The County reinstated the pension contribution that was eliminated from the 2011 budget.
- ▶ The OPEB costs will be funded on the pay-as-you-go basis.
- ▶ Even though health cost decreased for 2011, the County anticipates it to trend upward in 2012.
- ▶ Limited capital requests for equipment and vehicles were considered for budgeted purposes. These requests will be reviewed on an as needed basis.
- ▶ The County continues to evaluate the level of services desired by citizens and how to provide those services as economically as possible. The Charter Commission formed in 2011 is still in the process of evaluating City and County operations for possible consolidation.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCES OF GOVERNMENTAL ACTIVITIES TO
THE STATEMENT OF ACTIVITIES
Year Ended December 31, 2011**

NET CHANGES IN FUND BALANCES- TOTAL GOVERNMENTAL FUNDS	\$	(7,401,861)
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures.		
However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense exceeded capital outlay in the current period.		
Depreciation expense	\$ (21,574,645)	
Capital outlay	<u>8,028,328</u>	(13,546,317)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Taxes	\$ (241,912)	
Equity investment in joint venture	<u>74,454</u>	(167,458)
The current years additions to certain assets reduced the net expenses of those functions on the statement of activities.		
Net pension asset		92,221
Other postemployment expenses are reported in the government-wide statement of activities, but do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		
		(1,122,000)
Repayments of long-term principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.		
		1,425,061
Amortization of debt issuance costs and debt premiums are not reported at the fund level but are reported in the government wide statement of activities.		
		190,375
Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets.		
		(3,270,359)
Some expenses reported in the statement of activities, such as compensated absences do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		
Compensated absences		34,709
The internal service funds used by management to charge the costs of workers' compensation to individual funds are not reported in the government-wide statement of activities.

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2011

1. Summary of significant accounting policies

Whitfield County, Georgia (County) was incorporated in 1851 under the provisions of the Constitution of the State of Georgia. The County operates under a Board-Administrator form of government and provides the following services as authorized by its charter: public safety - 911 and fire, public works, sanitation, health and social services, culture-recreation, public improvements, planning and zoning and general administrative services.

The financial statements of the County have been prepared in conformity with generally accepted accounting principles in the United States (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting. The more significant accounting policies of the County are described below.

A. Reporting Entity - As required by generally accepted accounting principles, these financial statements present the government and its component units, entities with which the government has a significant financial or operational relationship. Blended component units, although legally separate entities, are, in substance, part of the government's operations, so data from these units are combined with data of the primary government. Discretely presented component units, on the other hand, are reported in a separate column in the combined financial statements to emphasize that they are legally separate from the government.

Joint Ventures

- The County participates with the City of Dalton in the Dalton-Whitfield Regional Solid Waste Management Authority ("DWRSWMA"). The County has fifty percent equity in this entity. Separately issued financial statements of the DWRSWMA can be obtained from their administrative office located at 4350 Gazaway Drive SE, Dalton, Georgia 30720.
- The County participates with the City of Dalton in the Northwest Georgia Trade and Convention Center Authority ("Trade Center"). The Trade Center became a separate authority in 2003. The County and City retained their respective shares of their equity balances as of December 31, 2002. The City and County each now have fifty percent interest in the income or loss of this entity. Separately issued financial statements of the Northwest Georgia Trade and Convention Center Authority can be obtained from their administrative office located at 2211 Dug Gap Battle Road, Dalton, Georgia 30720.
- The County participates with the City of Dalton in the Dalton-Whitfield Joint Development Authority. The County has fifty percent equity in this entity. Separately issued financial statements of the Dalton-Whitfield Joint Development Authority can be obtained from their administrative office located at 890 College Drive, Dalton, Georgia 30720.

Discretely Presented Component Unit

- **Whitfield County Department of Public Health** - A voting majority of the members of the Board of Health is appointed by the Whitfield County Board of Commissioners. The Whitfield County Board of Commissioners is authorized by state law to approve environmental health service fees. The Board of Commissioners approves the budget of the Board of Health and provides regular operating subsidies. The Whitfield County Department of Public Health issues a separately audited financial statement. A copy of the component unit report can be obtained from the Director of Management, North Georgia Health District, District 1 Unit 2, 100 West Walnut Avenue, Suite 92, Dalton, Georgia 30720.

- B. Government-wide Statements and Fund Financial Statements** - The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component unit. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from the legally separate component unit for which the primary government is financially accountable.

In the government-wide statement of net assets, both the government and business-type activities columns are presented on a consolidated basis by column, and are reflected on a full accrual, economic resource basis which recognizes all long-term assets and receivables as well as long-term debt and obligations. The County's net assets are reported in three parts – invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets.

The government-wide statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a program and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The County has elected not to follow subsequent private-sector guidance.

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2011

1. Summary of significant accounting policies - continued

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for the proprietary funds include the cost of contractual services and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Non-major funds are aggregated and presented in a single column.

Governmental funds are those funds through which most governmental functions are typically financed. The measurement focus of governmental funds is on the sources, uses and balances of current financial resources.

The County has presented the following major governmental funds:

General Fund - The general fund is the principal operating fund of the County. It is used to account for all financial resources except those required to be accounted for in another fund.

SPLOST Capital Projects Fund – SPLOST capital projects fund is used to account for financial resources to be used for the construction of roads and bridges financed through a special local option sales tax.

SPLOST Acquisition Fund – This fund is used to account for the acquisition of capital expenditures. Revenues are derived from transfers from the general fund.

The County has presented the following major business-type funds:

Dalton/Whitfield Solid Waste Management – The Dalton/Whitfield Solid Waste Management fund is used to account for the 50% equity interest in the joint venture with the City of Dalton.

Northwest Georgia Trade and Convention Center – The Northwest Georgia Trade and Convention Center fund is used to account for the 50% equity interest in the joint venture with the City of Dalton.

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2011

1. Summary of significant accounting policies - continued

Additionally the County reports the following funds:

Internal Service Fund – The internal service fund is to account for the self-insured workers' compensation program.

Fiduciary Funds – The County's fiduciary funds are agency funds used by the County's Constitutional Officers. These agency funds are custodial in nature and do not involve measurement of results of operations. They include the Tax Commissioner, Clerk of Superior Court, Sheriff, Probate Court, Magistrate Court and the Juvenile Court.

- C. Measurement Focus and Basis of Accounting** - The accounting and reporting treatment applied to a fund is determined by its measurement focus. Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide statements and fund financial statements for proprietary funds and fiduciary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The resources measurement focus means all assets and liabilities (whether current or non-current) are included on the statement of net assets and the operating statements present increases (revenues) and decreases (expenses) in net total assets. Under the accrual basis of accounting, revenues are recognized when earned. Expenses are recognized at the time the liability is incurred. Gains or losses resulting from disposals are included in operating income in the year of disposal.

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The County considers property taxes as available if they are collected within 60 days after year-end. Expenditures are recorded when the related fund liability is incurred. However, debt service requirements, as well as expenditures related to compensated absences are recorded only when payment is due.

Those revenues susceptible to accrual are property taxes, franchise taxes, special assessments, licenses, interest revenue and charges for services. Sales taxes collected and held by the state at year-end on behalf of the County are recognized as revenue. Property taxes received generally after 60 days are shown as deferred revenues. Fines, permits and forfeitures are not susceptible to accrual because generally they are not measurable until received in cash.

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2011

1. Summary of significant accounting policies – continued

Deferred revenues arise when potential revenue does not meet both the “measurable” and “available” criteria for recognition in the current period. Deferred revenues also arise when resources are received by the County before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures. On governmental fund financial statements, receivables that will not be collected within the available period have been reported as deferred revenue rather than revenue.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

D. Budgetary Control - The County follows these procedures in establishing the budgetary data reflected in the financial statements:

- On or before September 1, the County Administrator submits to the Whitfield County Board of Commissioners a proposed operating budget for the calendar year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
- Public hearings are conducted which allow for taxpayer comments.
- Budgets are legally adopted by the Board of Commissioners at the first regular meeting in December for the General, Special Revenue, Debt Service and Capital Projects Funds.

Any revisions to the budgets, other than intradepartmental transfers, must be approved by the Board in a regular scheduled meeting. The legal level of budgetary control is the department level.

Intradepartmental transfers, not affecting salaries or benefit accounts, must be requested in writing and approved by the County Administrator.

Formal budgetary integration is employed as a management control device during the year.

The County's budgets are prepared on a basis consistent with generally accepted accounting principles in the United States of America. Budgetary comparisons are presented on this basis.

All unexpended appropriations lapse at the end of the year.

E. Cash - The County uses a centralized cash account for a large portion of its operations. The monies deposited and disbursed are reflected in the individual funds. Negative balances incurred in pooled cash at year-end are treated as interfund receivable of the General Fund and interfund payable of the deficit fund. Cash includes demand deposits, certificates of deposit, and money market accounts.

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2011

1. Summary of significant accounting policies – continued

F. Investments – Investments include United States government and government agency securities. Money market investments that have a remaining maturity at the time of purchase of one year or less are reported at amortized cost, which approximates fair value. All other investments are stated at fair value based on quoted market prices.

Georgia law authorizes local governments to invest in the following types of obligations:

- Obligations of the State of Georgia or of any other states;
- Obligations issued by the United States;
- Obligations fully insured or guaranteed by the United States government or governmental agency;
- Obligations of any corporation of the United States government;
- Prime bankers' acceptances;
- Georgia Fund I state investment pool;
- Georgia Extended Asset Pool (GEAP);
- Repurchase agreements; and
- Obligations of other political subdivisions of the State of Georgia.

For purposes of the statement of cash flows, the County's proprietary fund type considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

G. Inventory - The cost of inventory is recorded as an expenditure at the time the individual inventory items are purchased. The County does not maintain significant levels of inventory items.

H. Prepaid Items - Certain payments to vendors reflect cost applicable to future accounting periods and are recorded as prepaid items. The expense or expenditure is recognized during the benefiting period.

I. Interfund Transactions – On the fund financial statements, receivables and payables resulting from interfund loans are classified as "due to/from other funds." Any residual balances outstanding between the governmental activities and business type activities are reported in the government-wide financial statements as "internal balances."

J. Capital assets – Capital assets, which include property, equipment and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$10,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Beginning in 2007, general infrastructure assets acquired prior to January 1, 2003 were reported in the basic financial statements.

WHITFIELD COUNTY, GEORGIA
NOTES TO BASIC FINANCIAL STATEMENTS
December 31, 2011

1. Summary of significant accounting policies – continued

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed.

Capital assets of the primary government, as well as the component units, are depreciated using the straight line method over the following useful lives:

<u>Assets</u>	<u>Years</u>
Buildings and structures	35
Equipment and fixtures	3 – 7
Vehicles	5
Infrastructure	10 – 40

K. Compensated Absences – It is the County's policy to allow employees to accumulate paid time off up to 20 days. Any earned leave in excess is credited to an extended leave bank. There is no liability for unpaid extended leave since the County does not have a policy to pay any amounts when employees separate from service with the government. All paid time off is accrued when incurred in the government-wide, and proprietary financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

L. Long-term Obligations – In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds. Bonds payable are reported net of applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

M. Fund Equity – At the governmental fund financial reporting level, fund equity is classified as “fund balance.” Fund equity for all other reporting is classified as “net assets.”

Fund Balance – Generally, fund balance represents the difference between the current assets and current liabilities. Amounts are classified as nonspendable, restricted, committed, assigned, or unassigned. The nonspendable fund balance includes amounts that are not available to fund expenditures such as inventories and prepaid amounts. The restricted fund balance category includes amounts that can be spent only for the specific purposes stipulated

WHITFIELD COUNTY, GEORGIA

1. Summary of significant accounting policies – continued

by constitution, external resource provider, or through enabling legislation. The committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority. Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes, but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the general fund, assigned fund balance represents the remaining amount that is not restricted or committed. Unassigned fund balance is the residual classification for the government's general fund and includes all spendable amounts not contained in the other classifications. In other funds, the unassigned classification should be used only to report a deficit balance resulting from overspending for specific purpose for which amounts have been restricted, committed, or assigned.

Net Assets – Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consists of capital assets net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors, or laws and regulations of other governments. All other net assets are reported as unrestricted.

- N. Estimates** - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
- O. Comparative Data** - Comparative total data for the prior year has been presented only for individual funds in the fund financial statements in order to provide an understanding of the changes in the financial position and operations of these funds. Also, certain amounts presented in the prior year data have been reclassified to be consistent with the current year's presentation.
- P. Interfund Activity** – Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after the non-operating revenues/expenses section in proprietary funds. Repayments from the funds responsible for particular expenditures or expenses to the funds that initially paid for them are presented as reductions in internal balances.

Transfers between governmental and business-type activities on the government-wide statement of activities are reported as general revenues. Transfers between funds reported in the governmental activities column are eliminated. Transfers between funds reported in the business type activities column are eliminated.

2. Cash and investments

Cash and investments – custodial credit risk

Custodial credit risk for deposits and investments is the risk that, in the event of the failure of a depository financial institution, the County's deposits and investments might not be recovered. The County's policy and state statutes require all deposits and investments to be collateralized by depository insurance, obligations of the U.S. government, or bonds of public authorities, counties or municipalities. As of December 31, 2011, all of the County's deposits were insured or collateralized.

Investments

As of December 31, 2011, the County had the following investments:

<u>Type</u>	<u>Fair Value</u>	<u>Interest Rate Risk</u>
Georgia Fund 1	\$6,610,815	Weighted Average Maturity - 60 days Duration - .54
GEAP	<u>1,065,911</u>	
Total investments	<u>\$7,676,726</u>	

The County invests funds throughout the year in a Local Government Investment Pool (Georgia Fund 1). Georgia Fund I, created by OCGA 36-83-8, is a stable net asset value investment pool which follows Standard and Poor's criteria for AAAm rated money market funds and is regulated by the Georgia Office of the State Treasurer. However, Georgia Fund I operates in a manner consistent with Rule 2a-7 of the Investment Company Act of 1940 and is considered to be a 2a-7 like pool. The pool is not registered with the Securities and Exchange Commission (SEC) as an investment company. The pool's primary objectives are safety of capital, investment income, liquidity and diversification while maintaining principal (\$1.00 per share value). Net asset value is calculated weekly to ensure stability. The pool distributes earnings (net of management fees) on a monthly basis and determines participant's shares sold and redeemed based on \$1.00 per share. Investments in the Georgia Fund I LGIP are rated AAAm. Due to the nature of the accounts, this fund is exempt from disclosure of custodial credit risk.

The Georgia Extended Asset Pool (GEAP) is offered by the State of Georgia to counties, municipalities, public colleges and universities, board of education, special districts, state agencies, and other authorized entities as an alternative to Georgia Fund I. A primary objective of GEAP is the prudent management of public funds on behalf of state and local governments. GEAP was designed for those investors seeking taxable income higher than money market rates and willing to accept price fluctuations. Investments in GEAP are rated aa+f. The fund is marked- to-market daily to maintain an accurate NAV. Minimum investment is \$1,000,000, and GEAP operates in a manner consistent with Georgia Fund I.

2. Cash and investments - continued

Deposit and investment transactions are subject to a variety of risks. The County's adopted investment policies seek to promote the safety of principal, provide adequate liquidity for operation needs, earn market rates of return on investments consistent with liquidity needs and investment quality, and conform with legal requirements.

Interest rate risk is the risk that changes in interest rates will adversely affect the value of an investment. The County's investment policy states that the Government will structure its portfolio to meet cash requirements for ongoing operations. The policy also emphasizes the purchase of shorter term or more liquid investment. The County limits its investments to those with maturities of five years or less.

Credit Risk is the risk that an issuer or counterparty to an investment will not fulfill its obligations. The County's investment policy seeks to minimize credit risk through diversification of investments within the choices allowed under state statutes.

3. Property taxes

State law requires that property taxes be based on assessed value, which is 40% of fair market value. With the exception of motor vehicles and the property of public utilities, which are valued by the State Revenue Department, the Board of Tax Assessors of Whitfield County makes all assessments. Upon completion of all assessments and tax returns, the information is turned over to the Whitfield County Tax Commissioner for compilation of the tax digest. The completed tax digest must be submitted to the State Revenue Commissioner for approval. The State Revenue Commissioner must ascertain that real property on the tax digest has been assessed at the state mandated forty percent (40%) of fair market value. If not, the State Revenue Commissioner may issue a consent order to reassess real property. The County Tax Commissioner distributes tax notices and collects tax payments.

The County Tax Commissioner also collects taxes for the Whitfield County Board of Education, the City of Dalton, the City of Dalton Board of Education, the City of Varnell, Dalton Downtown Development Authority, and the State of Georgia. Motor vehicle taxes must be paid by the birth date of the owner of the vehicle. Property taxes are levied each October based on values as of January 1st and are due on December 20th each year. The 2011 property taxes were levied on October 20, 2011 with taxes being due on December 20, 2011. Taxes are considered delinquent after December 20th. Collections of property taxes are made throughout the year. Property taxes are attached as an enforceable lien on the day the taxes become delinquent. The total real and personal tax levy is recorded as revenue in the fiscal year in which such amounts will be available (collected within 60 days of year-end) as net current assets. In the accompanying financial statements, the portion of the property tax levy for the tax year 2011 collected during the current year has been recognized as revenue.

5. Defined Benefit Pension Plan

A. Plan Description

The County sponsors the Association County Commissioners of Georgia Restated Pension Plan for Whitfield County Employees (The Plan), which is a defined benefit pension plan.

The Plan provides retirement, disability, and death benefits to plan participants and beneficiaries. The Plan, through execution of the adoption agreement, is affiliated with the Association County Commissioners of Georgia Third Restated Defined Benefit Plan (The ACCG Plan), an agent multiple-employer pension plan, administered by GEBCorp. The ACCG, in its role as the Plan Sponsor, has the sole authority to amend the provisions of the ACCG Plan, as provided in Section 19.03 of the ACCG Plan document. The County has the authority to amend the adoption agreement, which defines the specific benefit provisions of the Plan, as provided in Section 19.02 of the ACCG Plan document.

The pension plan is audited by an independent auditor and a separate report is issued. A copy can be obtained from GEBCorp, 400 Galleria Parkway, Suite 1250, Atlanta, Georgia 30339.

All full-time County employees are eligible to participate in the Plan after completing three years of service. Benefits vest after five years of service. Participants become eligible to retire at the earlier of: a) age 65 with 5 years vested service or b) age 60 with 10 years of service. Upon eligibility to retire, participants are entitled to an annual benefit in the amount of 1.0% of average annual compensation up to \$6,600 plus 1.5% of average annual compensation in excess of \$6,600 plus \$36 for each year of service payable as a life annuity. For participants hired after January 1, 2003 the annual benefit is 1% of average annual compensation multiplied by years of service. Compensation is averaged over a five year period prior to retirement or termination. The Plan also provides benefits in the event of death or disability. These benefit provisions were established by an adoption agreement executed by the County Board of Commissioners.

County employees are not required to contribute to the Plan. The County contributes the entire cost of the Plan, using the actuarial basis described in the annual valuation report.

Retirees, beneficiaries, and disables receiving benefits	139
Terminated plan participants entitled to but not yet receiving benefits	275
Active employees participating in the plan	<u>455</u>
Total number of plan participants	<u>869</u>

B. Contributions

The County is required to contribute an actuarially determined amount annually to the Pension Plan's trust. The contribution amount is determined using actuarial methods and assumptions approved by the ACCG Plan trustees and must satisfy the minimum contribution requirement contained in the State of Georgia statutes. Administrative expenses are based on total covered compensation of active plan participants and are added to the state-required annual funding requirement.

5. Defined Benefit Pension Plan - continued

The Georgia Constitution enables the governing authority of the County, the Board of Commissioners, to establish, and amend from time to time the contribution rates for the County and its plan participants.

The County's payroll for employees covered by the Plan as of January 1, 2011 (the most recent actuarial valuation date) was \$16,785,946, (based on covered earnings for the preceding year).

The required contributions for the plan years 2011, 2010, and 2009 were \$1,493,745, \$1,467,532, and \$1,460,073, respectively. These amounts represent 8.9%, 9.2%, and 9.7% of covered payroll, respectively. No contribution was made for the plan year 2011 which represents 0% of the annual pension cost.

Annual pension cost: The County's annual pension cost and net pension obligation (asset) for the pension plan for the current year were determined as follows:

<u>Derivation of Annual Pension Cost</u>	<u>2011</u>
Annual required contribution	\$ 1,493,745
Interest on net pension asset	(294,620)
Amortization of net pension asset	315,237
Annual pension cost	<u>\$ 1,514,362</u>
<u>Derivation of Net Pension Obligation (Asset)</u>	
Net pension obligation (asset) as of beginning of prior year	\$ (3,709,329)
Annual pension cost for prior year	1,487,649
Actual contributions to plan for prior year	(1,579,870)
Increase in net pension obligation (asset)	<u>(92,221)</u>
Net pension obligation (asset) as of beginning of the year	<u>\$ (3,801,550)</u>

The information presented in the required supplementary schedules was determined as part of the actuarial valuation as of January 1, 2011. The following summarizes the actuarial methods and assumptions used in that valuation:

Valuation date:	January 1, 2011
Actuarial cost method:	Projected Unit Credit
Asset valuation method:	Market Value
Actuarial assumptions:	
Assumed rate of return on assets:	7.75% per annum
Expected future salary increases:	5.0% - 7.5% based on age
Expected annual inflation:	3.0% per annum

5. Defined Benefit Pension Plan - continued

Funded status – At December 31, 2011, the actuarial accrued liability for pension benefits was \$29,672,099 and actuarial value of assets set aside to fund this liability was \$27,790,430. The resulting unfunded accrued actuarial liability was \$1,881,669, and the funded ratio was 93.7%. The covered payroll was \$16,785,946, and the ratio of the unfunded actuarial accrued liability to the covered payroll was 11.2%

The required schedule of funding progress immediately following the notes to the financial statements presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

The unfunded actuarial accrued liability is being amortized as a level percent of pay on a closed basis. The weighted average remaining amortization period as of January 1, 2011 was 10 years.

6. Other Postemployment Benefits (OPEB) – Healthcare

Plan Description – The Whitfield County Retiree Health Insurance Plan was established to provide post employment benefits for eligible retirees and beneficiaries. The plan is a single-employer defined benefit health care plan providing coverage for medical and prescription drug benefits. The Board of Commissioners established the benefit provisions and may amend them as necessary. The Plan does not issue separate financial statements.

To be eligible for OPEB benefits, an employee must have been covered under the medical plan as an active member immediately prior to retirement, must be 1) at least age 60 with 10 years of service or 2) at least age 65 with 5 years of service. Participants who are not eligible for retirement at the time of termination are not eligible for benefits from the plan. Retirees may not resume coverage under the plan once coverage has lapsed. For 2011, there were 12 retirees and dependents receiving benefits.

Actuarial methods and assumptions – Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The actuarial calculations are based on the types of benefits provided under the terms of the substantive plan at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. Actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the goal to reflect a long-term perspective.

7. Deferred compensation plan

The County offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, which is available to all full-time County employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, and rights (until paid or made available to the employee or other beneficiary) are held in trust for the exclusive benefit of participants and their beneficiaries.

8. Cafeteria Plan

Whitfield County offers its employees a cafeteria plan created in accordance with Internal Revenue Code Section 125. The plan, available to all full-time County employees, allows any one or more of the following benefits to be acquired through salary redirection:

- Health Care Reimbursement (expenses not covered by group medical plan)
- Dependent Care Assistance
- Insurance Premium Payments
 - (a) Group Medical
 - (b) Group Term Life
 - (c) Dental
 - (d) Vision

The amount of salary redirection is determined by each participant prior to the beginning of the plan year end and is irrevocable for such year.

Excess salary redirection amounts resulting from the failure of a participant to incur a qualified expense or to seek reimbursement in a timely manner is forfeited and credited to the benefit plan surplus. Surplus amounts are first used to defray administrative costs and experience losses with the remainder, if any, being distributed to participants on a per capita basis. Any potential charges for the administration of the plan are paid by the County. In 2011, there were no charges incurred.

9. Risk-management

The County is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the Government carries commercial insurance. Only liability coverage is maintained for County vehicles. The County established a limited risk management program for employee health insurance in 1992. Premiums are available to pay claims, claims reserve, excess insurance coverage and administrative costs of the program. During the fiscal year 2011, a total of \$4,332,194, was paid in benefits and administrative costs. An excess coverage insurance policy covers individual claims in excess of \$75,000. Based upon past claims history, claims incurred but not reported are considered to be immaterial and have not been accrued.

The County has joined together with other governments in the State as part of the Georgia Interlocal Risk Management Agency Property and Liability Insurance Fund and the Association County Commissioners of Georgia (ACCG) Workers' Compensation Self Insurance Fund, public entity risk pools currently operating as common risk management and insurance programs for member local governments. As part of these risk pools, the County is obligated to pay all contributions and assessments as prescribed by the pools, to cooperate with the pool's agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the funds being required to pay any claim of loss. The County is also to allow the pool's agents and attorneys to represent the County in investigation, settlement discussions and all levels of litigation arising out of any claim made against the County within the scope of loss protection furnished by the funds.

The funds are to defend and protect the members of the funds against liability or loss as prescribed in the member government contract and in accordance with the workers' compensation law of Georgia. The funds are to pay all costs taxed against members in any legal

Settled claims in the current year have not exceeded the coverages.

Claims and Judgments – Description

Significant losses experienced by the County are covered by commercial insurance for all risks except employee health care for which the County retains the risk of loss. For insured risks there have been no significant reductions in insurance coverage. Settlement amounts have not exceeded insurance coverage for the current year or through prior years.

Claims Liabilities

The County records an estimated liability for indemnity health care, torts and other claims against the County. Claim liabilities are based on estimates of the ultimate cost of reportable claims (including future claim adjustment expenses) and an estimate for claims incurred but not reported based on historical experience.

Unpaid Claim Liabilities

The fund establishes a liability for both reported and unreported events, which includes estimates of both future payments of losses and related claims adjustment expenses.

The following represents the changes in approximate aggregate liabilities for the County from January 1, 2009 to December 31, 2011:

Intergovernmental Liability – In 1998, the County entered into a Utility Service Agreement with Dalton Utilities for the construction of water lines in the west side area of the county. In 2003, another agreement was entered into for the construction of water lines in the north side area. In 2007, the final phase of water lines was constructed. Dalton Utilities funded the costs of construction and Whitfield County guaranteed the payment of the interest on the outstanding debt for the projects. The payments on the first debt, beginning in 1999, are due quarterly over a twelve year period. The second agreement has payments beginning in 2003 for a nine year period, and the third agreement, beginning in 2007, has quarterly payments for ten years. Original debt on all phases was \$9,742,966. The annual requirements to amortize the intergovernmental liability outstanding at December 31, 2010 are as follows:

Revenue Bonds

On December 18, 2009, the County issued bonds through the Dalton-Whitfield Joint Development Authority in the amount of \$3,625,000. The bonds bear interest of 3.63% with a final maturity of December 15, 2019. Proceeds from the sale of these bonds were used for the acquisition and development of land, including sewer for the Commerce Park I project. This project is to promote trade, commerce and economic development for the citizens of Whitfield County.

On June 29, 2010, the County issued Series 2010A bonds through the Dalton-Whitfield Joint Development Authority in the amount of \$3,775,000. These bonds bear interest of 2.97% with a final maturity of June 15, 2020. Proceeds from these bonds were used to acquire and develop land, including roads for the Carbondale Business Park.

On June 29, 2010, the County issued Series 2010B bonds through the Dalton-Whitfield Joint Development Authority in the amount of \$6,075,000. These bonds bear interest of 5.51% and have a final maturity of June 15, 2025. Proceeds from these bonds were used to acquire land for commercial and industrial development for the Carbondale Business Park.

On July 7, 2011, the County issued Series 2011 bonds through the Dalton-Whitfield Joint Development Authority in the amount of \$3,220,000. These bonds bear interest of 2.825% with a final maturity of June 15, 2021. Proceeds from these bonds were used to acquire land and the grading thereof, which is to be leased by the Authority to a company pursuant to a ground lease agreement for their construction of an advanced manufacturing facility.

Pursuant to these bond issues, the County entered into intergovernmental contracts with the Dalton-Whitfield Joint Development Authority whereby the County has an unconditional obligation to provide funds for the bond payments. The County will exercise its power of taxation to the extent necessary, up to one mill per dollar of the assessed value of taxable property, to fulfill its obligation.

10. Long-term debt - continued

Intergovernmental liabilities are liquidated by funds set aside from the special purpose local option sales tax in the debt service fund. The note payable, capital lease, revenue bonds and compensated absences liability is liquidated by the general fund.

11. Interfund receivables/payables and transfers

Interfund balances at December 31, 2011, consisted of the following amounts and represent charges for services or reimbursable expenses. These remaining balances resulted from the time lag between the dates that (1) interfund goods or services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting period, and (3) payments between funds are made. The County expects to repay all interfund balances within one year.

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>

Transfers are primarily used to move funds from the general fund to finance various programs accounted for in other funds. Transfers to the capital projects fund are resources for future capital expenditures. Transfers from non-major governmental funds to the general fund are to reimburse the general fund for personnel cost associated with grants. Interfund receivables/payables are due to timing differences and are expected to be reimbursed during the fiscal year ending December 31, 2012.

12. Joint ventures

Dalton-Whitfield Solid Waste Management

The County and the City of Dalton share equally in operations of the Dalton-Whitfield Regional Solid Waste Management which operates solid waste disposal sites within Whitfield County. All budgetary and financial records are maintained by the City of Dalton. Administration is accomplished through a five member board with each government appointing two members and the fifth member being elected by the affirmative vote of the majority of the four appointed. Current expenses are funded through user fees and, if necessary, equal transfers from both governments. The County's equity interest in this joint venture is shown within the proprietary fund. The County's share of the resulting income or loss from the joint venture is shown separately as charge for services on the Statement of Activities.

State and federal laws and regulations require the Dalton-Whitfield Regional Solid Waste Management Authority to place a final cover on its landfill sites when they stop accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and post-closure care costs will be paid only near or after the date that the landfill stops accepting waste, the Authority reports a portion of the closure and post-closure care costs as a non-operating expense in each period based on landfill capacity used as of each balance sheet date.

The accrual for closure and post-closure cost is summarized by location as follows:

Landfill sites:	Westside	Old Dixie Phases 2,4 and 5	Old Dixie Phase 6 Cells 1 and 2	Old Dixie Phase 6 Cells 3 and 4	Balefill	Total
	Estimated future costs:					
Closure	Completed	Completed	\$ 3,220,000	\$ 2,210,000	\$ 1,765,000	\$ 7,195,000
Post-closure	\$ 780,000	\$ 1,890,000	2,160,000	1,490,000	1,240,000	7,560,000
	780,000	1,890,000	5,380,000	3,700,000	3,005,000	14,755,000
Percentage of total landfill capacity used as of 12/31/11	100%	100%	100%	44.0%	49.0%	-
	780,000	1,890,000	5,380,000	1,628,000	1,472,000	11,150,000
Land acquisition	50,000	-	-	-	-	50,000
Accrual at 12/31/11	\$ 830,000	\$ 1,890,000	\$ 5,380,000	\$ 1,628,000	\$ 1,472,000	\$ 11,200,000

The Authority will record the remaining estimated cost of closure and post-closure care costs of \$3,605,000 as the remaining capacity is filled. Estimated remaining landfill life is more than 30 years. The above estimates are based on what it would cost to perform all closure and post-closure care in 2011. Actual costs when incurred may be higher due to inflation, changes in technology, or changes in laws and regulations.

12. Joint ventures - continued

The Authority's landfill closure and post-closure requirements are being funded from user fees and interest earned from investments. If these revenues are inadequate or additional post-closure care requirements are determined, these costs may need to be covered by charges to future landfill users.

According to the latest inspection reports issued by the Georgia Department of Natural Resources, dated February 17, 2012, the Dalton-Whitfield Regional Solid Waste Management Authority was in compliance for closure and post-closure care financial assurance requirement as of December 31, 2011.

Northwest Georgia Trade & Convention Center Authority

The County participates with the City of Dalton in the Northwest Georgia Trade and Convention Center Authority. All budgetary and financial records are maintained by the City of Dalton. The County and City of Dalton share equally in the operations of the NWGTCCA, which operates to promote tourism, conventions, special events, and trade shows. Current expenses are funded through user fees, and, if necessary, equal transfers from both governments.

In 1991, Whitfield County and the City of Dalton entered into a twenty-year lease for the Northwest Georgia Trade & Convention Center facilities from the City of Dalton Building Authority. Lease

payments, which correspond with payment on the Building Authority's revenue bonds, are due on January 1, and July 1, of each year. The lease contains a bargain purchase option, which can be exercised at any time after the bonds are retired or in conjunction with the early retirement of the bonds. These bonds were retired during 2011.

In 2003, the contractual authority converted to a legislative authority containing a seven member board composed of two members appointed by the City, two members appointed by the County, and three members, appointed by the four City and County appointees, representing the lodging, restaurant, and tourism industries respectively.

Due to the 2003 legislative act mentioned above and the retirement of the bonds as stated in the first paragraph, the assets will transfer to the Authority. It is on this basis that the County is amortizing its capital investment including land over the remaining life of the bonds. The County's ownership interests ends upon the retirement of the bond. During 2011, the bond was retired and the assets transferred to the Authority.

The City of Dalton and Whitfield County shall each be required to fund one half (1/2) of an agreed-upon annual appropriation as the local government contributions to the Northwest Georgia Trade & Convention Center Authority as well as the debt service of the current 2003 bonds used to refinance the 1993 construction bond.

In 2011, the County changed from the cost to the equity method of accounting for this joint venture. See Note 13 for change in fund equity.

The Whitfield County Department of Public Health is the only discretely presented component unit in the financial statements of Whitfield County, Georgia at December 31, 2011. The information shown on the component unit is extracted from the June 30, 2011 audited financial statements.

15. Commitments and contingencies

Legal Proceedings - The County is a defendant in various lawsuits. An accrual of \$100,000, representing the County's liability insurance deductible, was recorded at December 31, 2011 in the general fund.

Self-insurance programs - The County is self-insured for employee health claims

Grant programs - Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

Ambulance and Emergency Rescue Services – On September 14, 2009, the County entered into a new agreement with Hamilton Emergency Medical Services, Inc. The County pays for ambulance and emergency rescue services. The amount expended in 2011 and 2010 was \$485,000 for each year. The contract terminates December 31, 2012.

16. Hotel/Motel Tax

Whitfield County, Georgia levies a hotel/motel tax in accordance with the provisions of OCGA 48-13-51. The amount expended for 2011 was \$215,275, which represents 100% of the tax receipts.

Analysis of the dollar amounts of actuarial value of assets available for benefits, actuarial accrued liability, and unfunded actuarial accrued liability in isolation can be misleading. Expressing the actuarial value of assets as a percentage of the actuarial accrued liability provides one indication of funded status on a going-concern basis. Analysis of this percentage over time indicates whether the system is becoming financially stronger or weaker. Generally, the greater this percentage, the stronger the Plan.

Trends in unfunded actuarial accrued liability and annual covered payroll are both affected by inflation. Expressing the unfunded actuarial accrued liability as a percentage of annual covered payroll approximately adjusts for the effects of inflation and aids analysis of the Plan's progress in accumulating sufficient assets to pay benefits when due. Generally, the smaller this percentage, the stronger the Plan.

SPECIAL REVENUE FUNDS

NON-MAJOR SPECIAL REVENUE FUNDS

These operating funds are used to account for the proceeds of specific revenue sources (other than fiduciary funds or for major capital projects) that are legally restricted as to use by the Federal or State Government and special purpose funds established by the County Board of Commissioners.

Governmental Law Library Fund - accounts for revenues and expenditures associated with maintaining a law library for attorneys practicing in state and county courts.

District Attorney Forfeiture Fund - accounts for revenues and expenditures associated with seized property through court ordered forfeitures for the purpose of enhancing law enforcement.

Sheriff's Forfeiture Fund - accounts for revenues and expenditures associated with seized property through court ordered forfeitures for the purpose of enhancing law enforcement.

911 Emergency System – accounts for revenues and expenditures associated with providing emergency services to telephone subscribers in Whitfield County.

Whitfield County Neighborhood Stabilization Program – accounts for revenues and expenditures associated with the purchase and redevelopment of foreclosed upon homes and residential properties, and can be used to purchase and rehabilitate homes and residential properties that have been abandoned or foreclosed upon in order to sell, rent, or redevelopment.

Tunnel Hill Transportation Enhancement Grant – accounts for revenues and expenditures associated with the construction of sidewalks and multi-use trails in and near the park in Tunnel Hill to link residential neighborhood and main highway to the park. This project will be complimented by picnic tables, kiosks, trash receptacles, and other amenities.

Conasauga A.D.R. Program - accounts for revenues and expenditures used to resolve cases before they reach the main court system by arbitration or mediation.

Divorce Seminar Fund - accounts for revenues and expenditures associated with the mandated course for anyone seeking divorce who has children.

Juvenile Service Fund - accounts for revenues and expenditures associated with juvenile court ordered supervision fees.

Local Victim Assistance Program - accounts for revenues and expenditures associated with a program to assist victims of crimes or abuse.

Drug Abuse Treatment and Education - accounts for revenues and expenditures associated with drug abuse treatment and education programs relating to controlled substances and marijuana.

Community Development Block Grant – accounts for revenues and expenditures associated with a grant funded through Georgia Department of Community Affairs for the extension of sewer service and housing rehabilitation in the Sherwood Forest Neighborhood.

Byrne Memorial Justice Assistance Grant Programs – accounts for revenues and expenditures associated with funds provided under the American Recovery and Reinvestment Act of 2009. Funds are used to purchase vehicles, equipment and software for various departments.

Community HOME Investment Program (CHIP) - accounts for revenues and expenditures associated with the Community Development Block Grant (CDBG) to assist a special population of seven homeowners with the reconstruction of their homes.

Scenic By-Way Grant – accounts for revenues and expenditures associated with the construction of three trailheads; two in Whitfield County and one in Murray County. The trailheads are funded by a grant via the Federal Highway Administration and the Georgia Department of Transportation.

Homeland Security Grant – accounts for revenues and expenditures associated with funds provided by the Department of Homeland Security to help build and enhance capabilities to prevent, protect against, respond to, and recover from terrorist attacks, major disasters and other emergencies in accordance with the goals and objectives of the State Strategic Plan.

Crime Victim Assistance Grant - accounts for revenues and expenditures associated with providing approved services directly to victims of child abuse, spousal abuse, sexual assault or previously underserved victims of violent crimes.

Juvenile Offenders Grant – accounts for revenues and expenditures associated with the juvenile offenders program. The funds are used for psychological evaluations for juvenile offenders.

Georgia Civil War Heritage Trails – accounts for revenues from other governments and expenditures associated with the State of Georgia Civil War Heritage Trails project.

Hotel/Motel Tax Fund - accounts for revenues and expenditures associated with the county's hotel/motel room tax.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Commissioners
Whitfield County, Georgia

We have audited the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of Whitfield County, Georgia, as of and for the year ended December 31, 2011, which collectively comprise Whitfield County, Georgia's basic financial statements and have issued our report thereon dated June 5, 2012. Our report includes a reference to other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Other auditors audited the financial statements of the component unit, Whitfield County Department of Public Health, as described in our report on Whitfield County, Georgia's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matter that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Whitfield County, Georgia's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Whitfield County, Georgia's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of Whitfield County, Georgia's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies in internal control over financial reporting 11-01, 11-02 and 11-03. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Whitfield County, Georgia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of Whitfield County, Georgia, in a separate letter dated June 5, 2012.

Whitfield County, Georgia's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit Whitfield County, Georgia's response and, accordingly, we express no opinion on it.

This report is intended solely for the information and use of management, the Board of Commissioners, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS
THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON
INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133**

Board of Commissioners
Whitfield County, Georgia

We have audited Whitfield County, Georgia's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of Whitfield County, Georgia's major federal programs for the year ended December 31, 2011. Whitfield County, Georgia's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs is the responsibility of Whitfield County, Georgia's management. Our responsibility is to express an opinion on Whitfield County, Georgia's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Whitfield County, Georgia's compliance with those requirements and performing such other procedures, as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of Whitfield County, Georgia's compliance with those requirements.

In our opinion, Whitfield County, Georgia complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2011.

Internal Control Over Compliance

Management of Whitfield County, Georgia is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Whitfield County, Georgia's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Whitfield County, Georgia's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, Board of Commissioners, others within the entity, federal awarding agencies and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

**WHITFIELD COUNTY, GEORGIA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED DECEMBER 31, 2011**

Financial Statement Findings

FS11-01 **Criteria:** Agency funds are used to account for resources held by the County, primarily the elected officials, in a purely custodial capacity, which means that all funds held are owed to other governments, organizations, or individuals. Due to the nature of these funds, it is important that adequate records be maintained to account for receipts, disbursements, and any residual funds that are held to be paid at a later date. Such listings should be reconciled to the respective cash balances maintained.

Condition: During our audit of the Sheriff's Office, the comprehensive detail listing provided did not reconcile to the balance of funds being held in the commissary cash account at December 31, 2011. Also requested accounting documentation could not be supplied.

Cause: This unknown amount is due to the lack of maintenance of proper subsidiary listings and tracking of receipts and disbursements. There were no procedures in place for routine reviews of the reconciling balances on a monthly or annual basis. Also, original documents had been either destroyed or misfiled and could not be produced.

Effect: Accounting data could be misstated.

Recommendation: We recommend procedures be implemented to require reports be prepared and reconciled on a weekly, monthly, and annual basis. We also recommend all backup records be kept for a time period and filed in an organized manner. Reviews and monitoring of these procedures on a timely basis should also be implemented.

Management Response: We concur with the finding. We are working to reconcile the detail listing to the cash balance and will keep records in an organized filing system.

FS11-02 **Criteria:** Internal controls should be in place that provides reasonable assurance that revenue is billed, collected, and recorded properly.

Condition: Internal controls were not in place to insure State Inmate Housing Revenues are being billed, received, and recorded properly in the Sheriff Department.

Cause: There are no procedures in place to determine that State housed prisoners are invoiced. Also, there are no procedures in place to insure funds are being collected once they are invoiced and timely recorded in the accounting system.

Effect: The deficiency could cause revenue not to be collected.

Recommendation: Internal controls should be implemented to detect when the correct amount of revenue is not received. Oversight should be provided and data reviewed by someone in the Sheriff's department that would assure the proper revenue is being invoiced, received, and recorded timely.

Management response: We agree with the finding. We will implement a system to monitor amounts invoiced, collected, and recorded.

**WHITFIELD COUNTY, GEORGIA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED DECEMBER 31, 2011**

FS11-03 **Criteria:** Controls and monitoring relating to district codes for motor vehicle taxes in the Tax Commissioner's Office are inadequate.

Condition: Controls and monitoring should be in place in order to sufficiently prevent, detect and correct misstatements on a timely basis.

Cause: The Tax Commissioner has not implemented controls and monitoring sufficient to reduce the risk of misallocation of revenues of the motor vehicles.

Effect: Motor vehicle revenue could be misallocated to the incorrect taxing authority.

Recommendation: The department should implement controls and monitoring of district codes on a regular basis.

Management Response: We concur. We will discuss controls and monitoring that could be implemented.
