Searching Marriage Records (1940's-current)

Instructions: After logging in, click “My WebLink” at the top right hand corner of the screen. Next Click “**Search**” at the top left hand corner of the screen. This will be in dark bold letters (**Home Browse Search**). When you click “**Search**” it will create a drop down box to customize search. You will need to use the drop down box to choose ‘template’. Next pick “**Probate Marriage Records**” as your template choice. You can then search by groom or brides name, book and page, or other combinations.

Suggestion: Enter as little search information as possible, such as only the groom’s name or bride’s name with an * behind each name. This will increase the total records searched to catch any records that were possibly indexed incorrectly.
